INTRODUCTION

Hello,

I'm Sindhura A.

Front-end web design projects submitted as a screenshot portfolio.

STUDENT DETAILS

Who made these projects

NAME	Sindhura A
ROLL NUMBER	26001056
BRANCH	CSM (AI and ML)
SECTION	4

This document presents screenshots from three front-end website projects: a shopping website, a bus and train ticket booking website and a bakery website. Each one has its own colours, typography and layout, with a short note on what every section does.

MY PROJECTS

Projects at a glance

PROJECT 1 | 5 SCREENS

VELORA - Shopping Website

An online store for fashion, electronics, beauty and accessories, with category cards, filterable product cards and an Add to Cart flow.

PROJECT 2 | 8 SCREENS

TRAVELORA - Bus and Train Ticket Booking

A bus and train booking site: search a route, compare fares, pick a seat and fill in passenger details (demo only, no real payments).

PROJECT 3 | 10 SCREENS

SweetBites - Bakery and Cake Studio

A bakery and cake studio site with a menu, custom cake section, gallery, customer reviews and an order enquiry form.

PROJECT 1

VELORA

Shopping Website

Find your everyday magic.

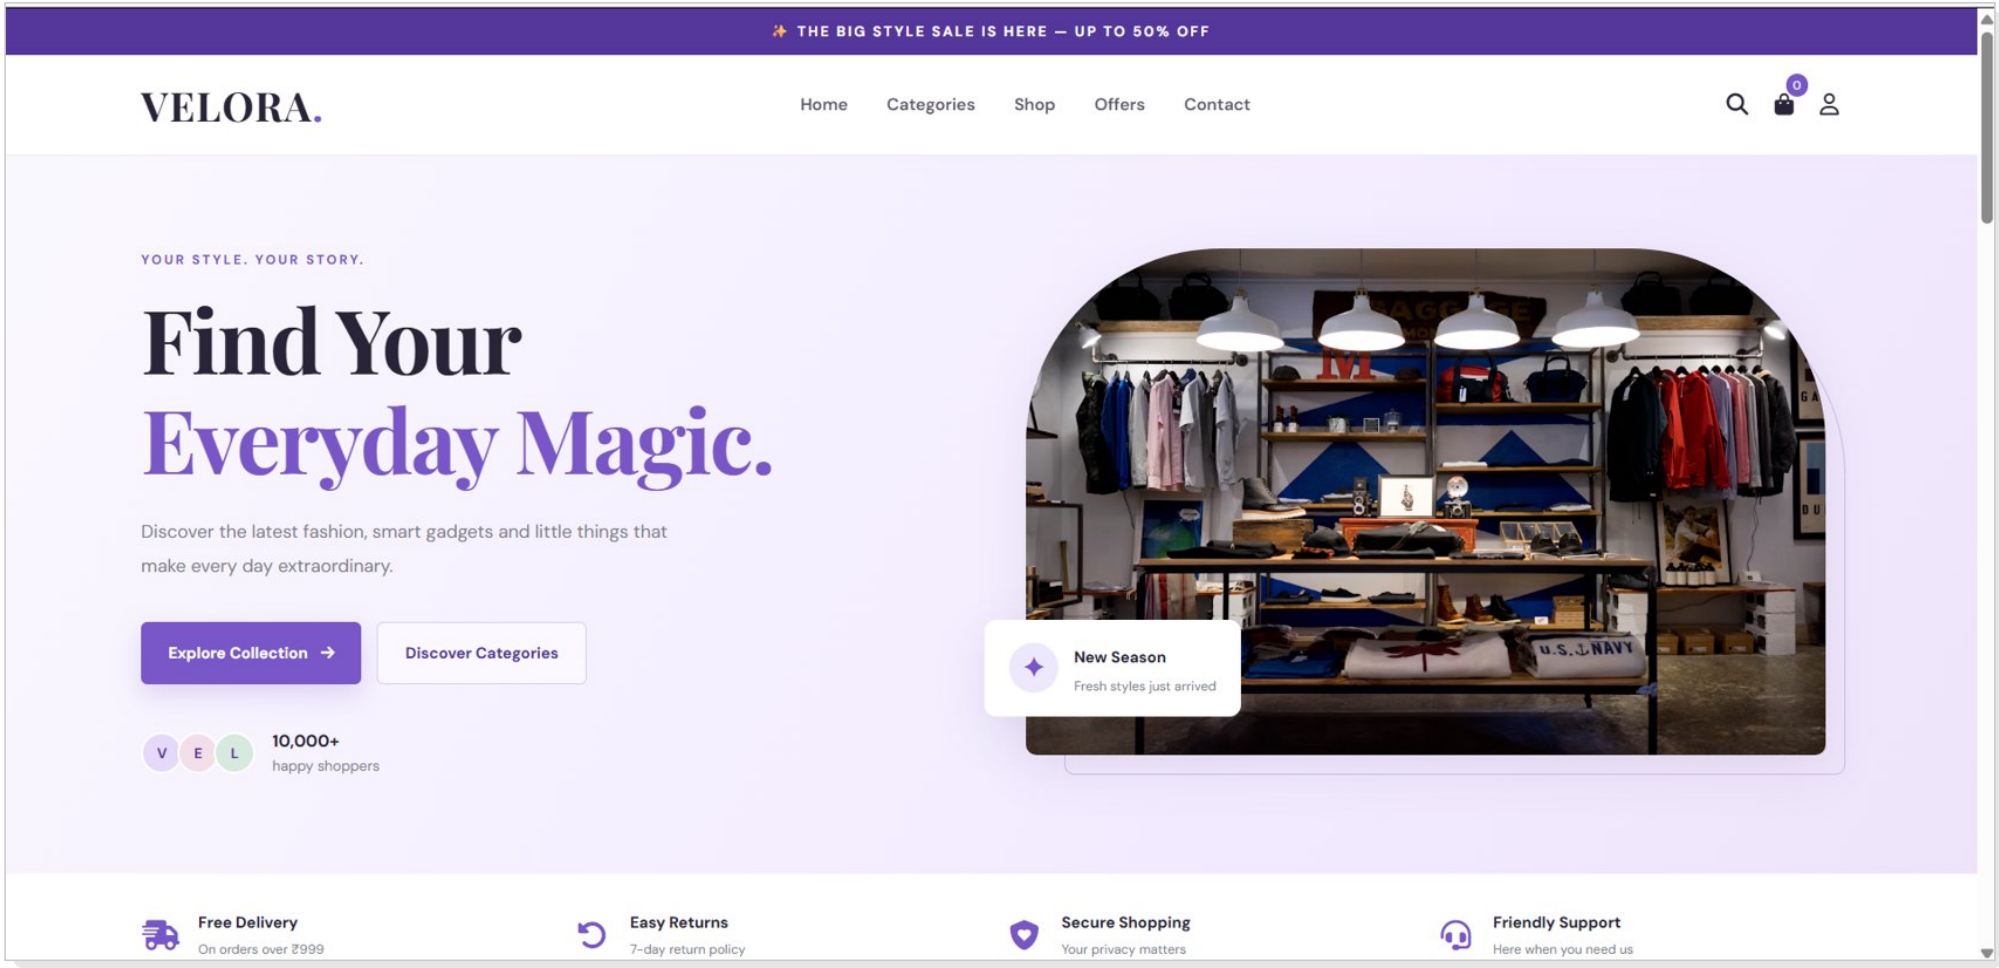

VELORA is an online shopping website for fashion, electronics, beauty products and accessories. It uses a clean white and purple theme with elegant serif headings, rounded product cards and clear call-to-action buttons, so visitors can browse categories and add items to the cart with ease.

KEY FEATURES

- Promotional banner and sticky navigation with search, cart and account icons
- Hero section with headline, two action buttons and a happy-shoppers badge
- Shop by Category cards: Fashion, Electronics, Beauty and Accessories
- Best Picks product grid with category filters, discount tags, ratings, prices and Add to Cart
- Newsletter sign-up and a detailed footer

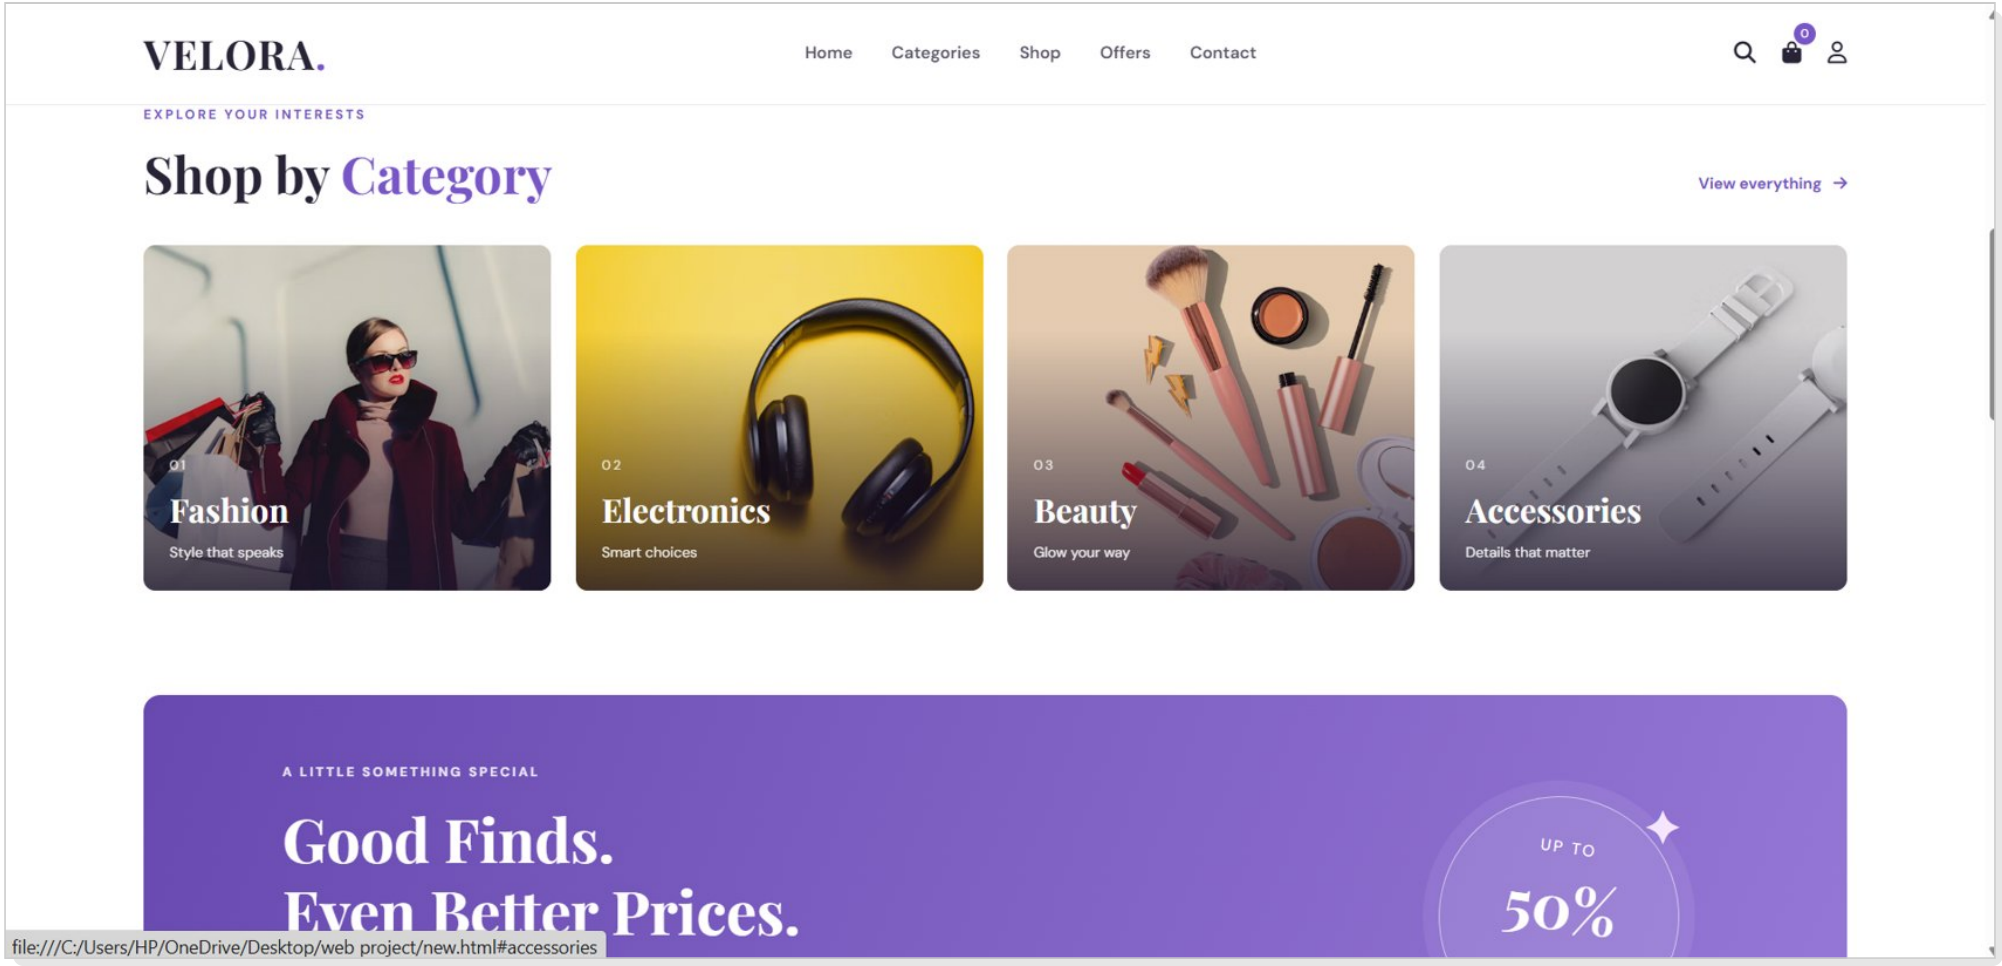

Home page: hero section

A bold headline, 'Find Your Everyday Magic', sits beside a boutique photo. The page opens with a sale banner, a clear menu, and a row of service highlights: free delivery, easy returns, secure shopping and friendly support.

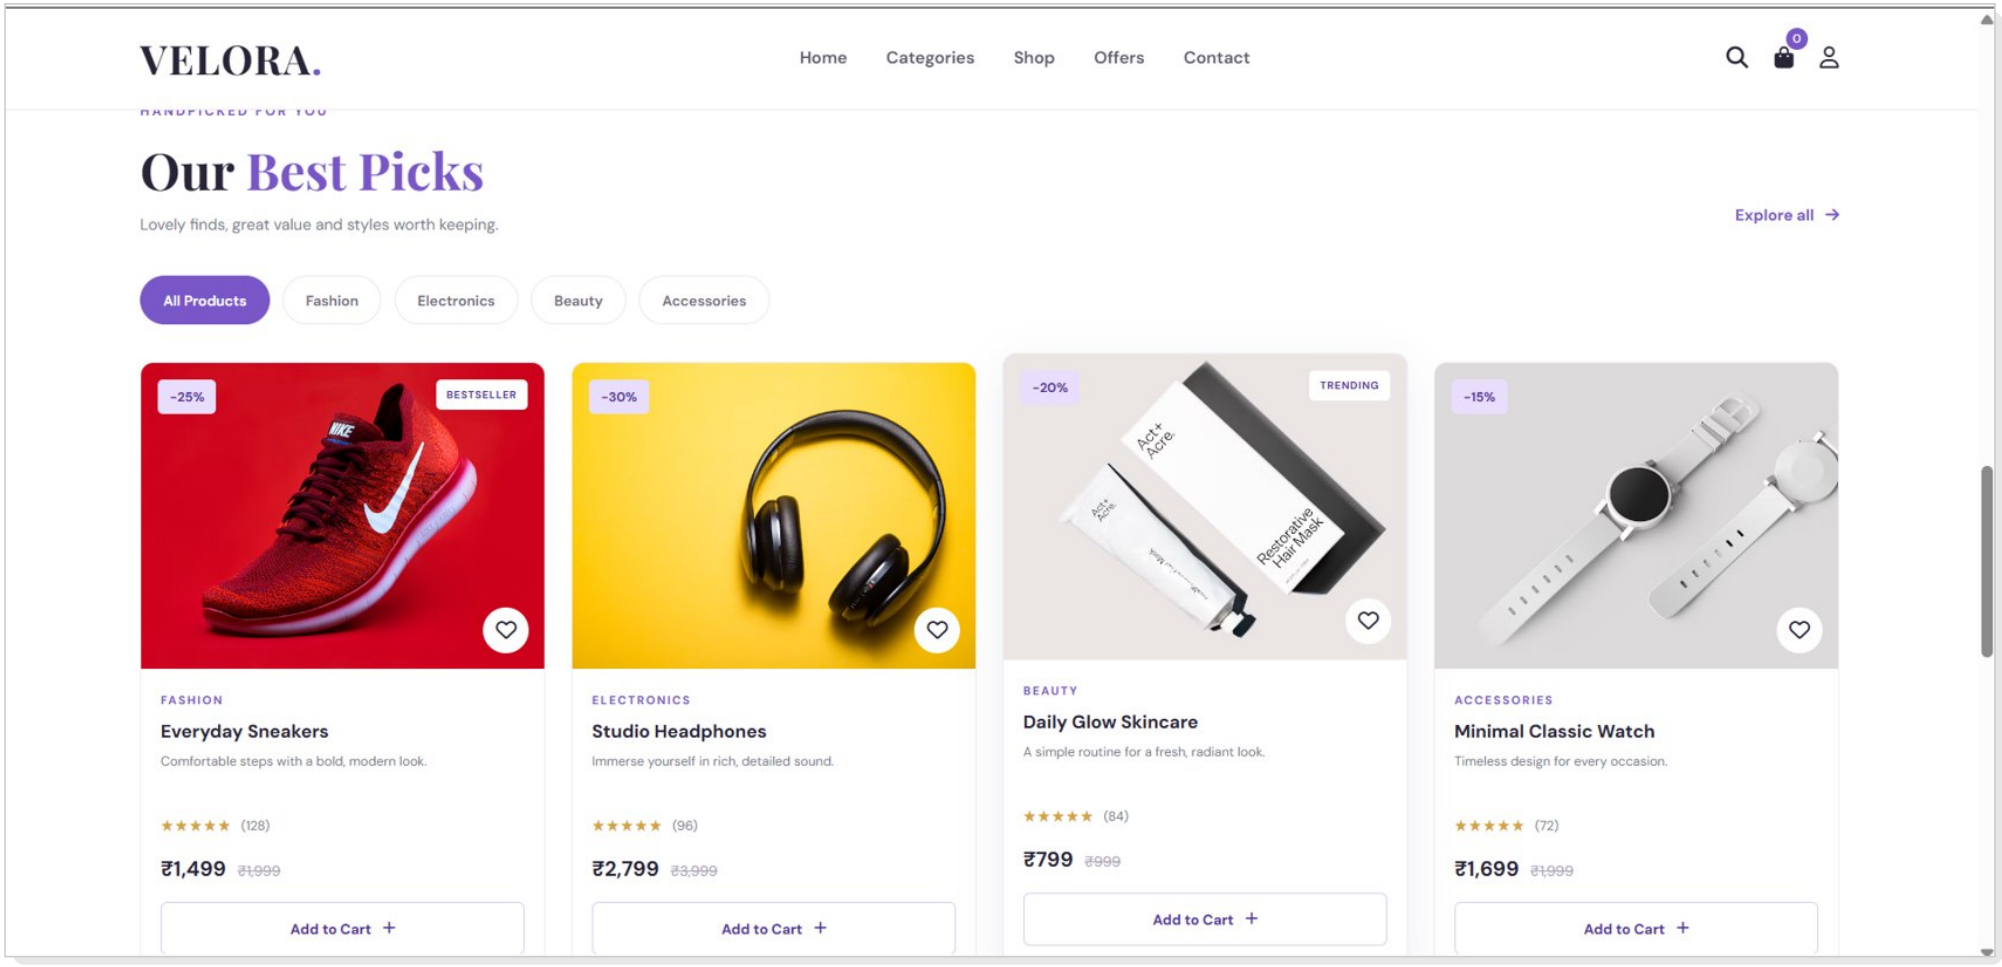

Shop by Category

Four image cards with overlay text let visitors jump straight to Fashion, Electronics, Beauty or Accessories. Below them, a purple offer banner announces savings of up to 50%.

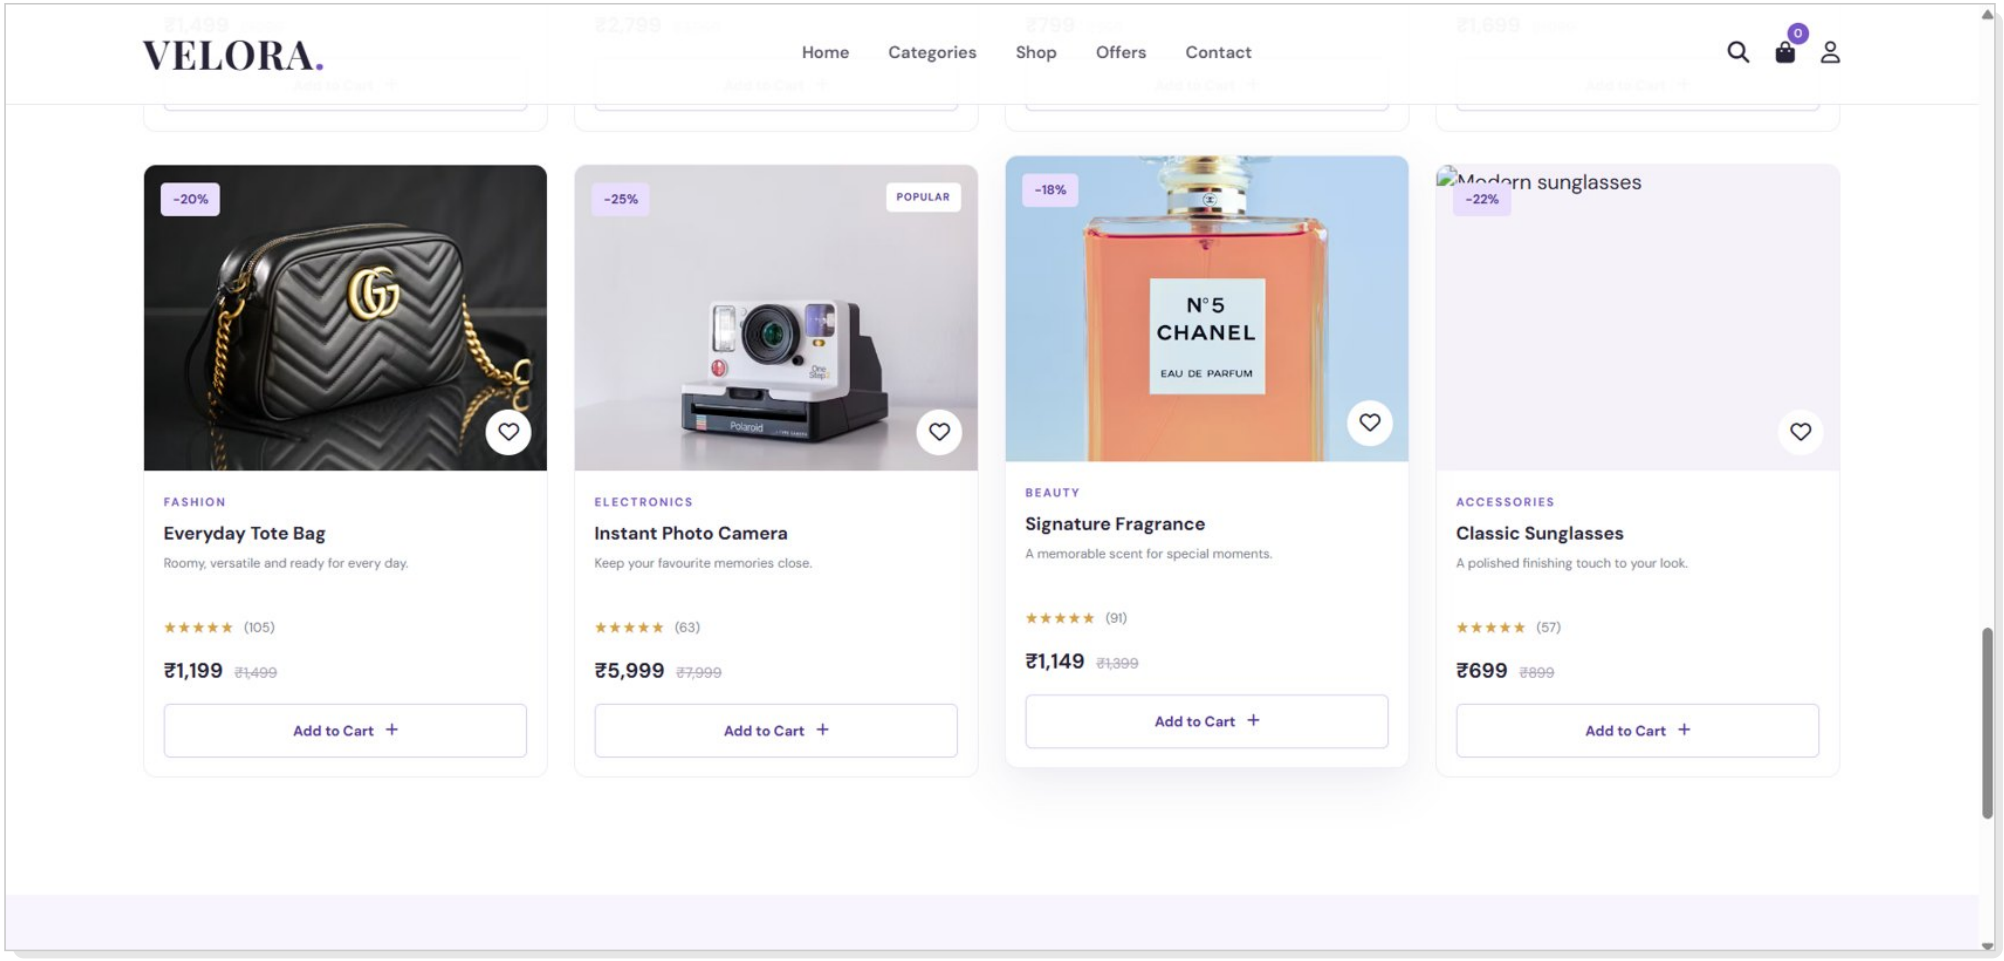

Our Best Picks

Product cards show an image, category label, short description, star rating, current price with the old price struck through, a discount badge and a heart icon. Filter buttons switch between All Products and each category.

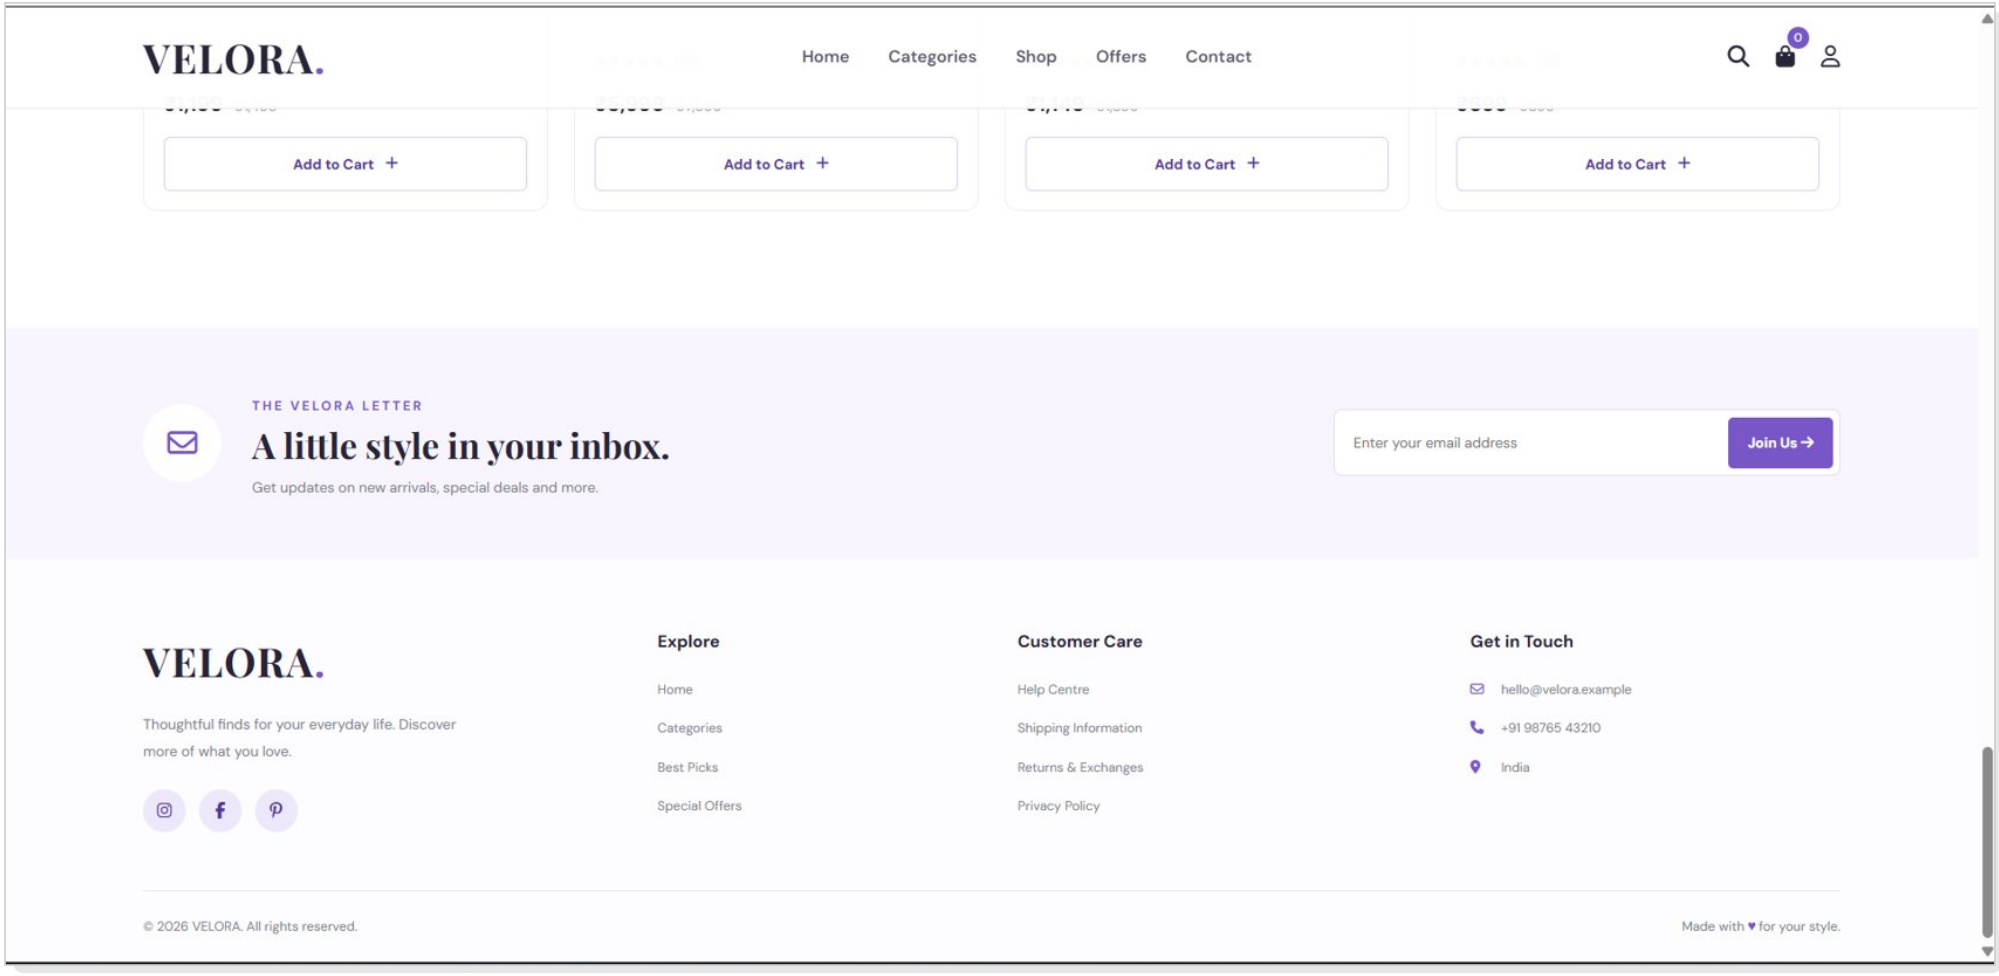

Product grid, continued

The second row of products continues the same card design with a tote bag, an instant camera, a fragrance and sunglasses. Hover effects lift the cards to give the page a lively feel.

Newsletter and footer

A soft lavender sign-up strip invites visitors to join the mailing list. The footer groups links under Explore, Customer Care and Get in Touch, with social icons and copyright text.

PROJECT 2

TRAVELORA

Bus and Train Ticket Booking

Every journey has a beautiful beginning.

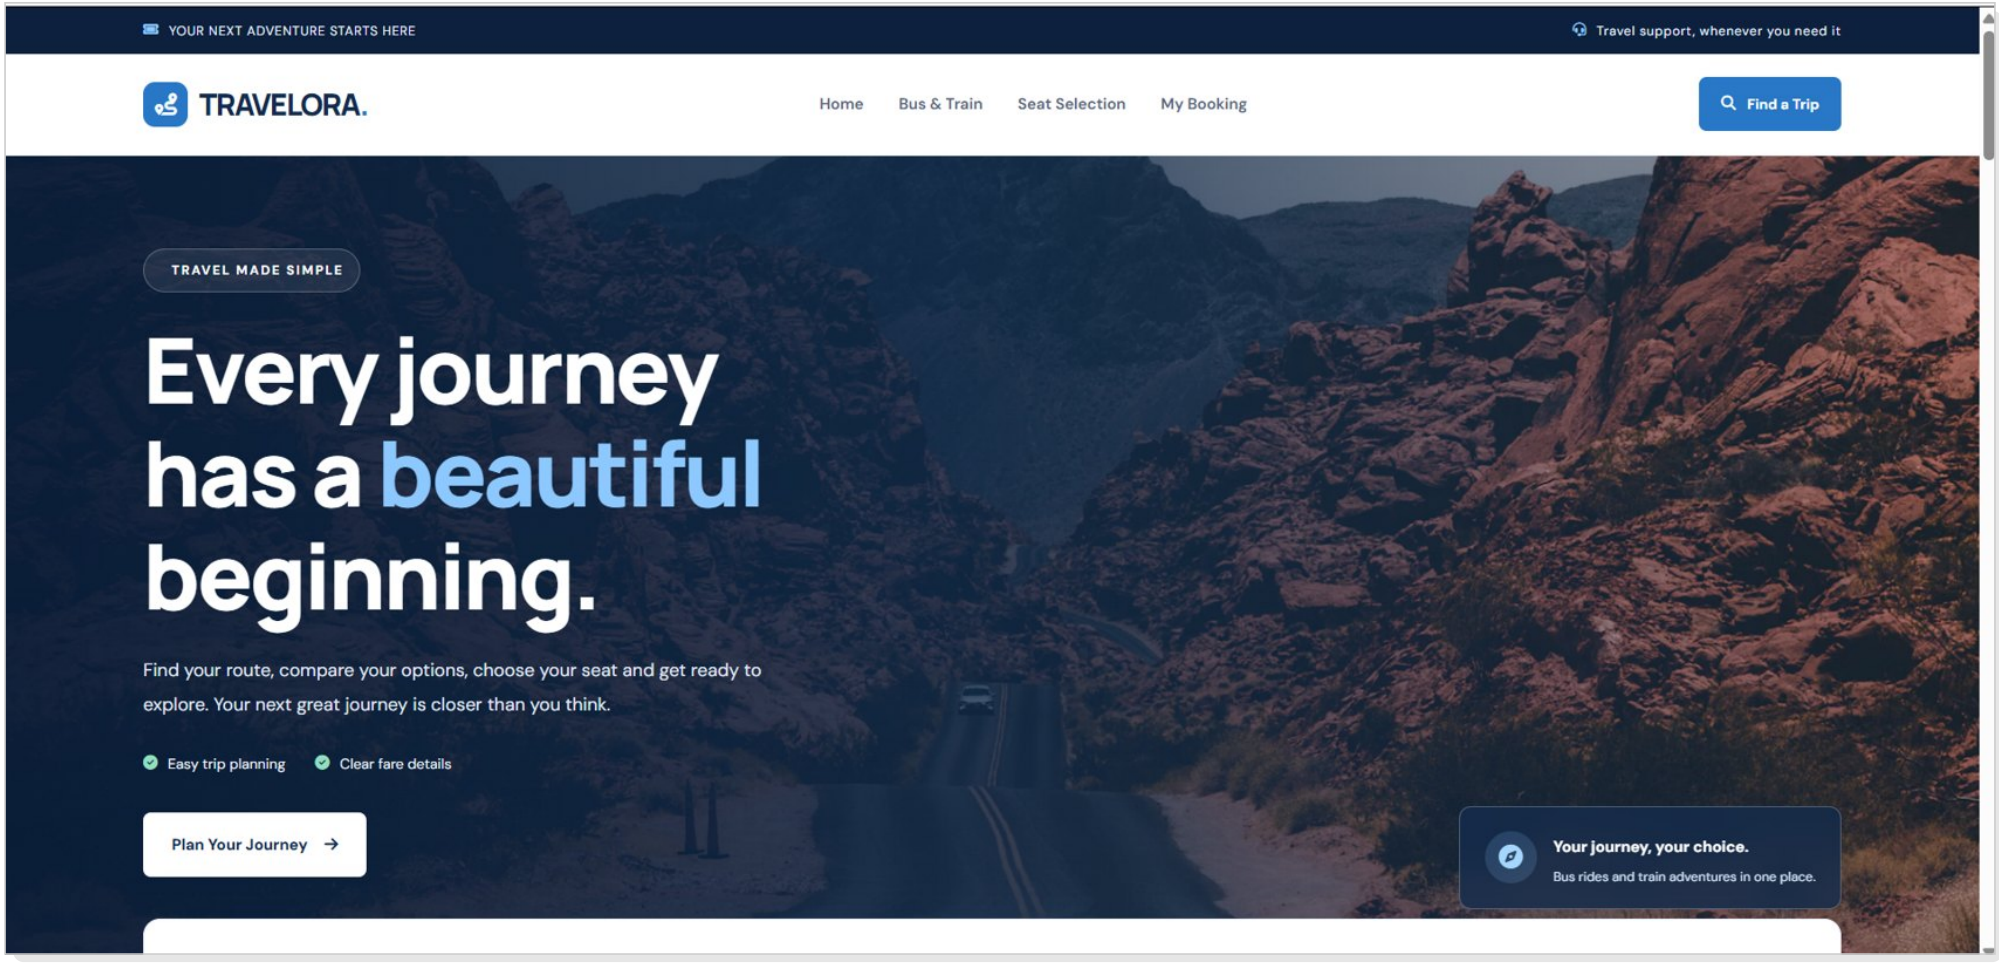

TRAVELORA is a booking website for bus and train journeys. It guides the traveller step by step: search a route, compare services and fares, pick a seat, review the journey summary and fill in passenger details. It uses a navy and blue theme with a landscape hero image. The listings are sample data shown for demonstration, and no real payment or reservation is made.

KEY FEATURES

- Hero section with 'Find a Trip' button and trip-planning highlights
- Search form: travel type, from, to, journey date and passengers
- Sample bus and train services with times, duration, amenities, ratings and fares
- Fare comparison table for all services
- Interactive seat layout with available, selected and occupied seats, plus a journey summary
- Passenger details form and a call-to-action footer

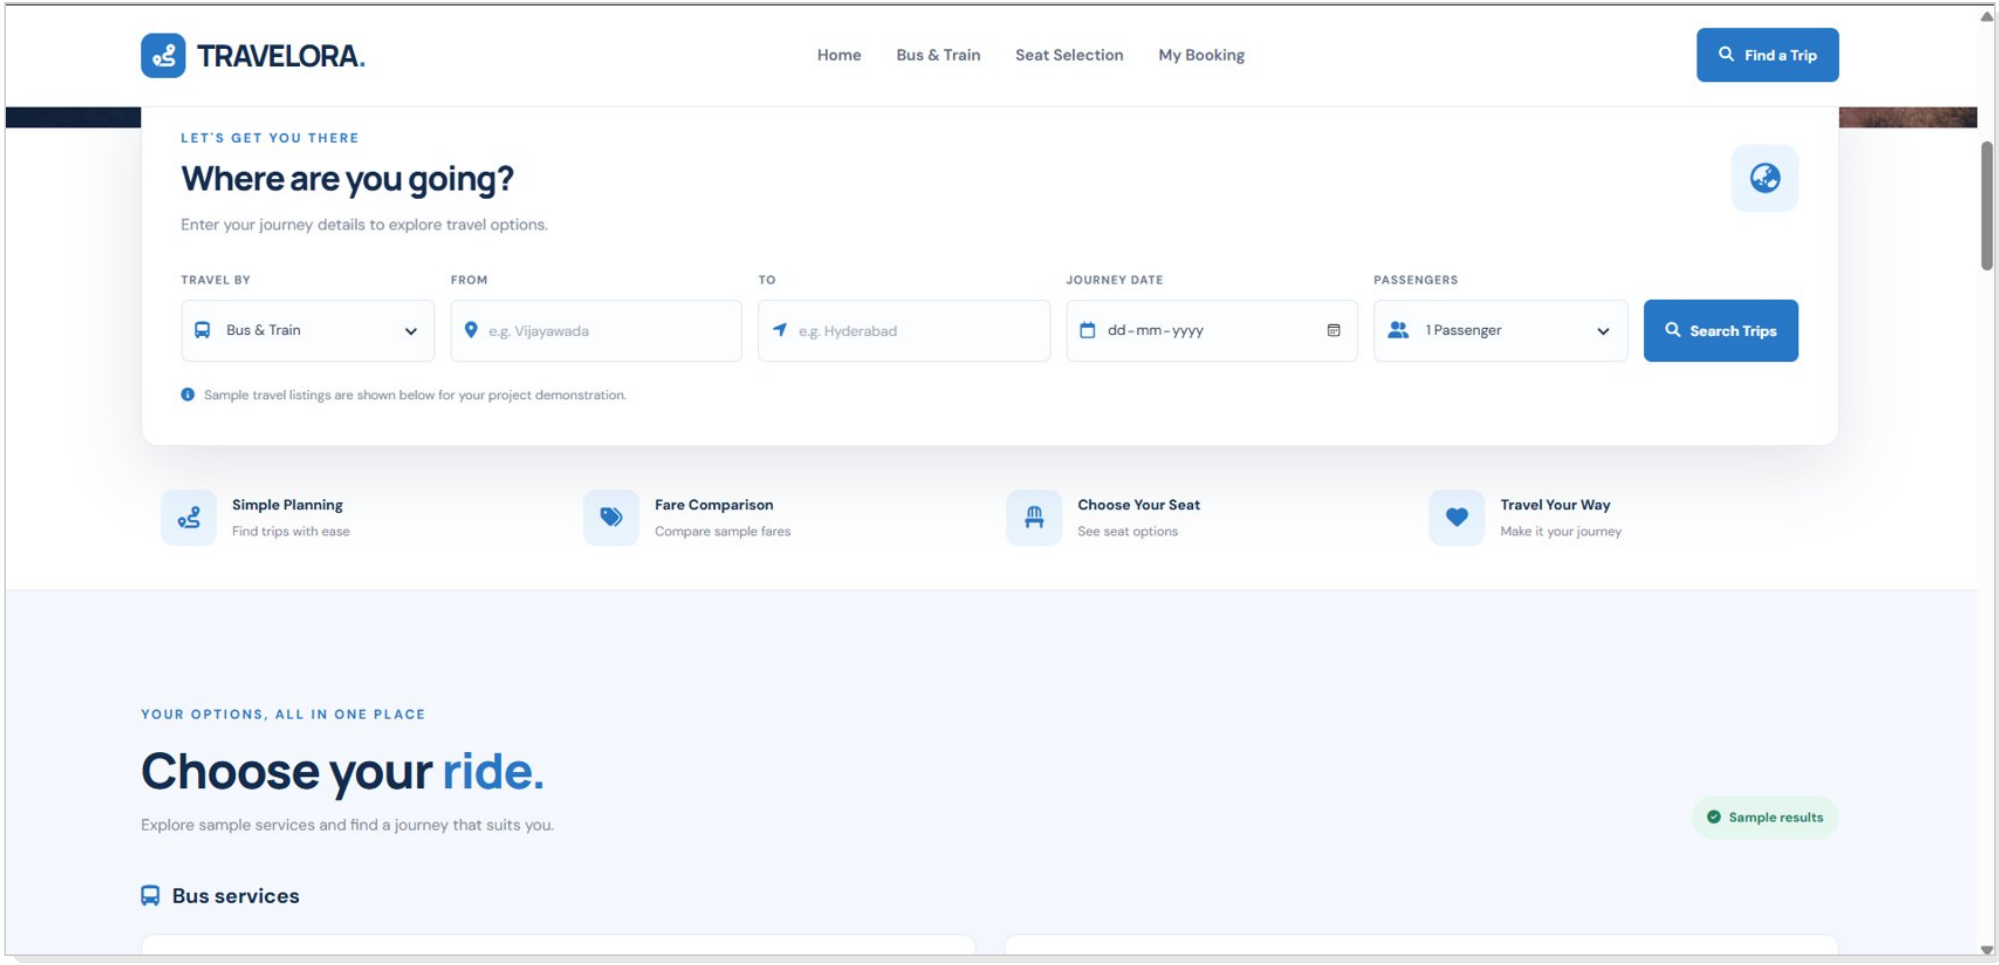

Home page: hero section

A dark, atmospheric road-trip photo carries the headline 'Every journey has a beautiful beginning.' Visitors see easy trip planning and clear fare details, and can start straight away with 'Plan Your Journey'.

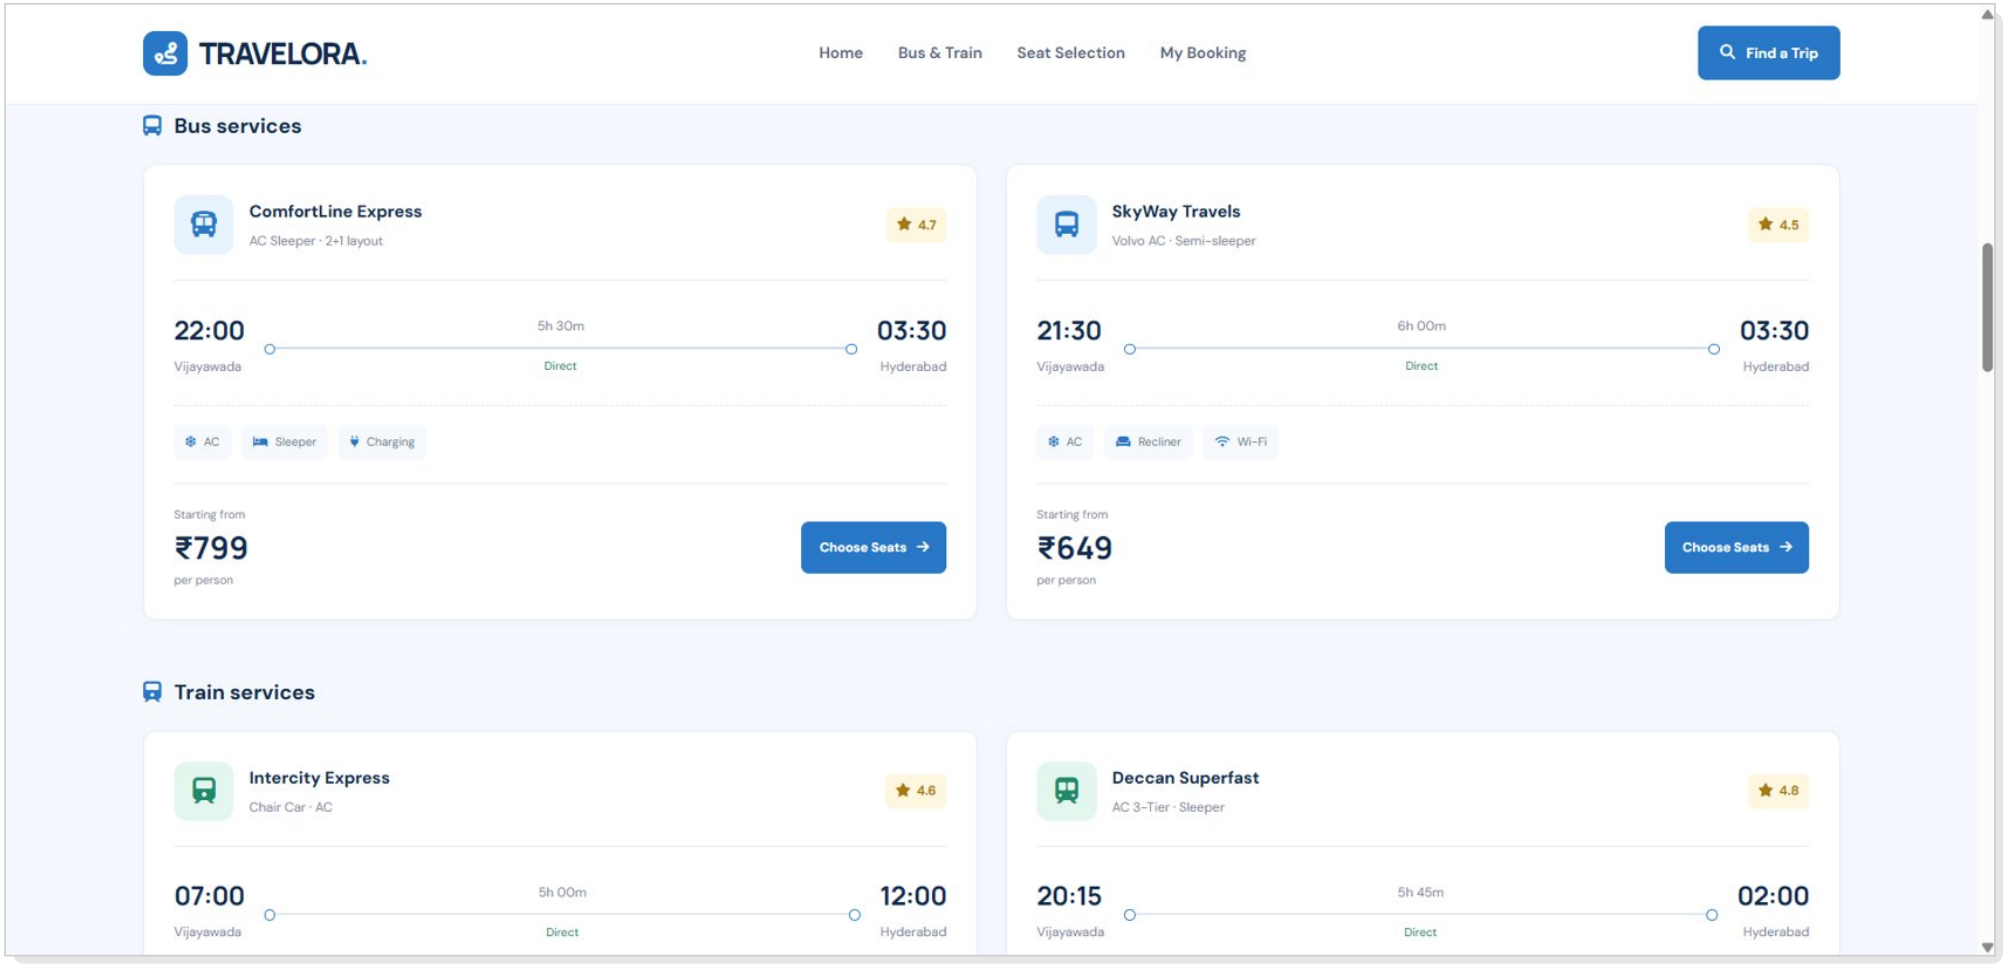

Trip search

The 'Where are you going?' panel collects travel type, origin, destination, date and number of passengers. Four feature icons below explain simple planning, fare comparison, seat choice and travelling your way.

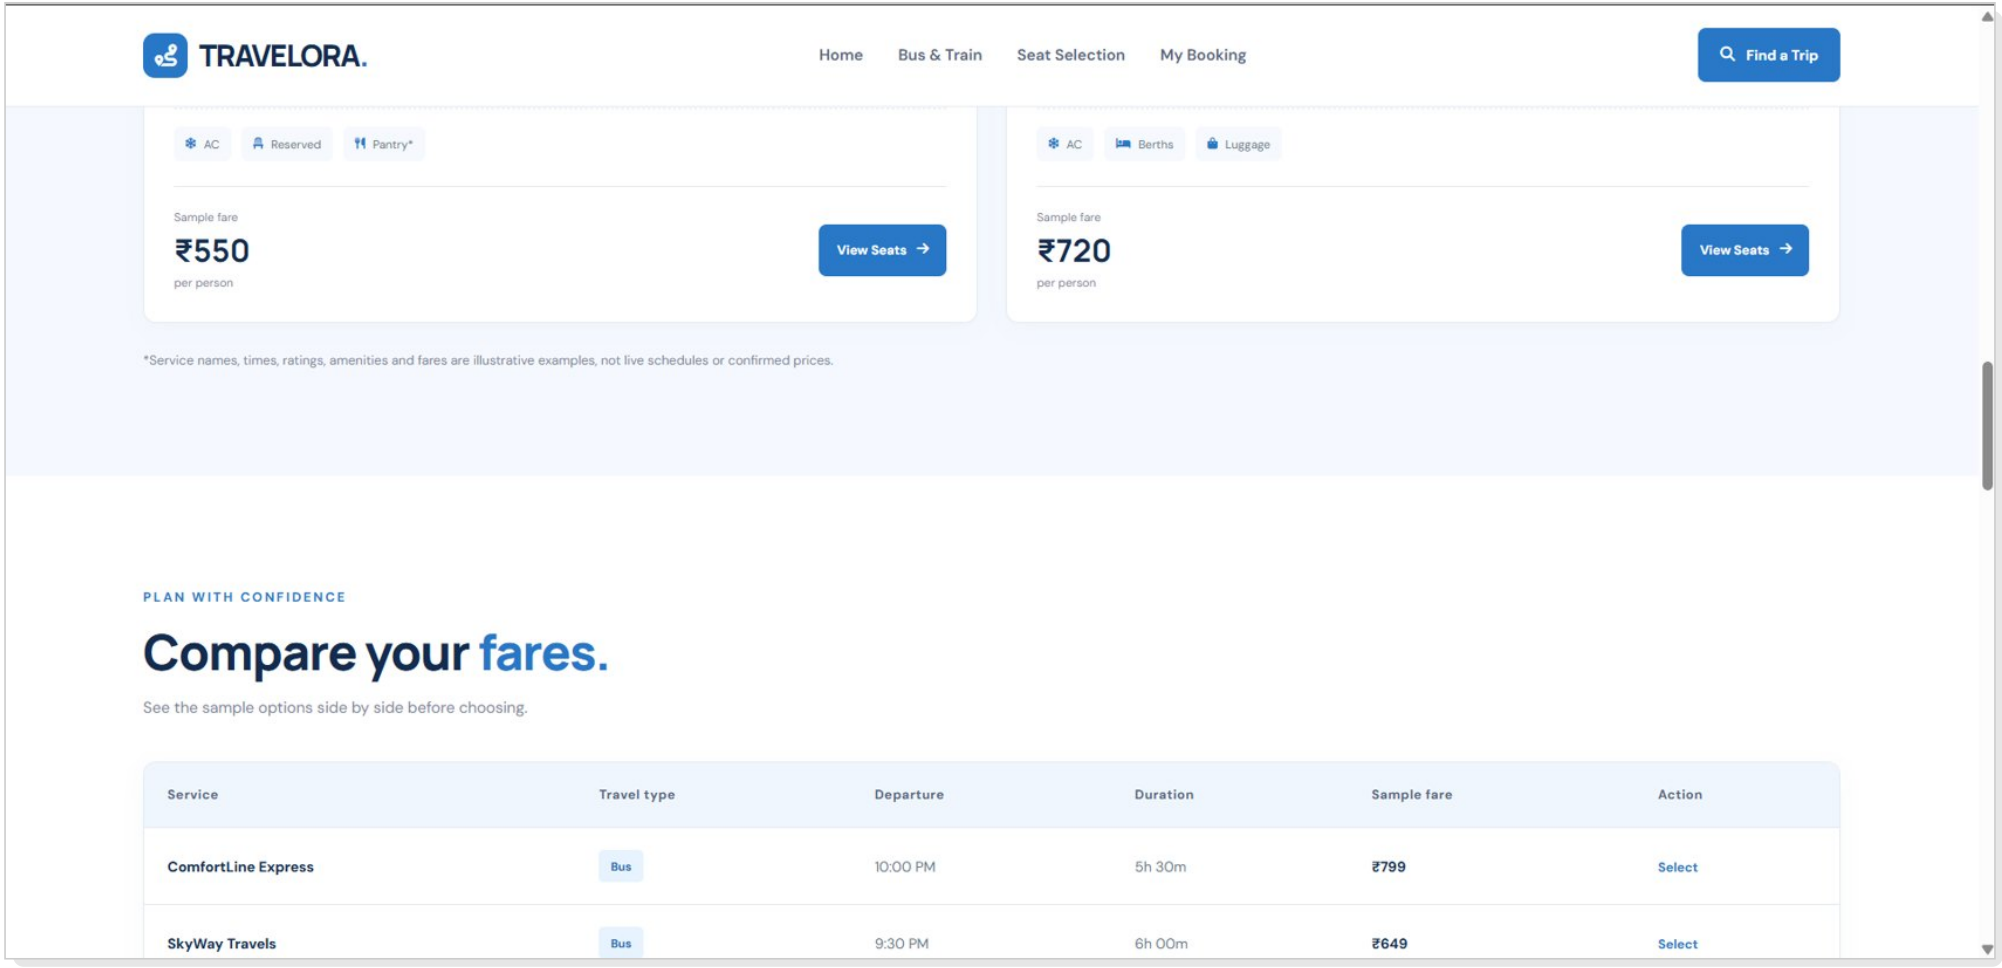

Choose your ride: services

Each service card shows the operator, coach or train type, rating, departure and arrival times, duration, amenities and the starting fare, with a 'Choose Seats' button.

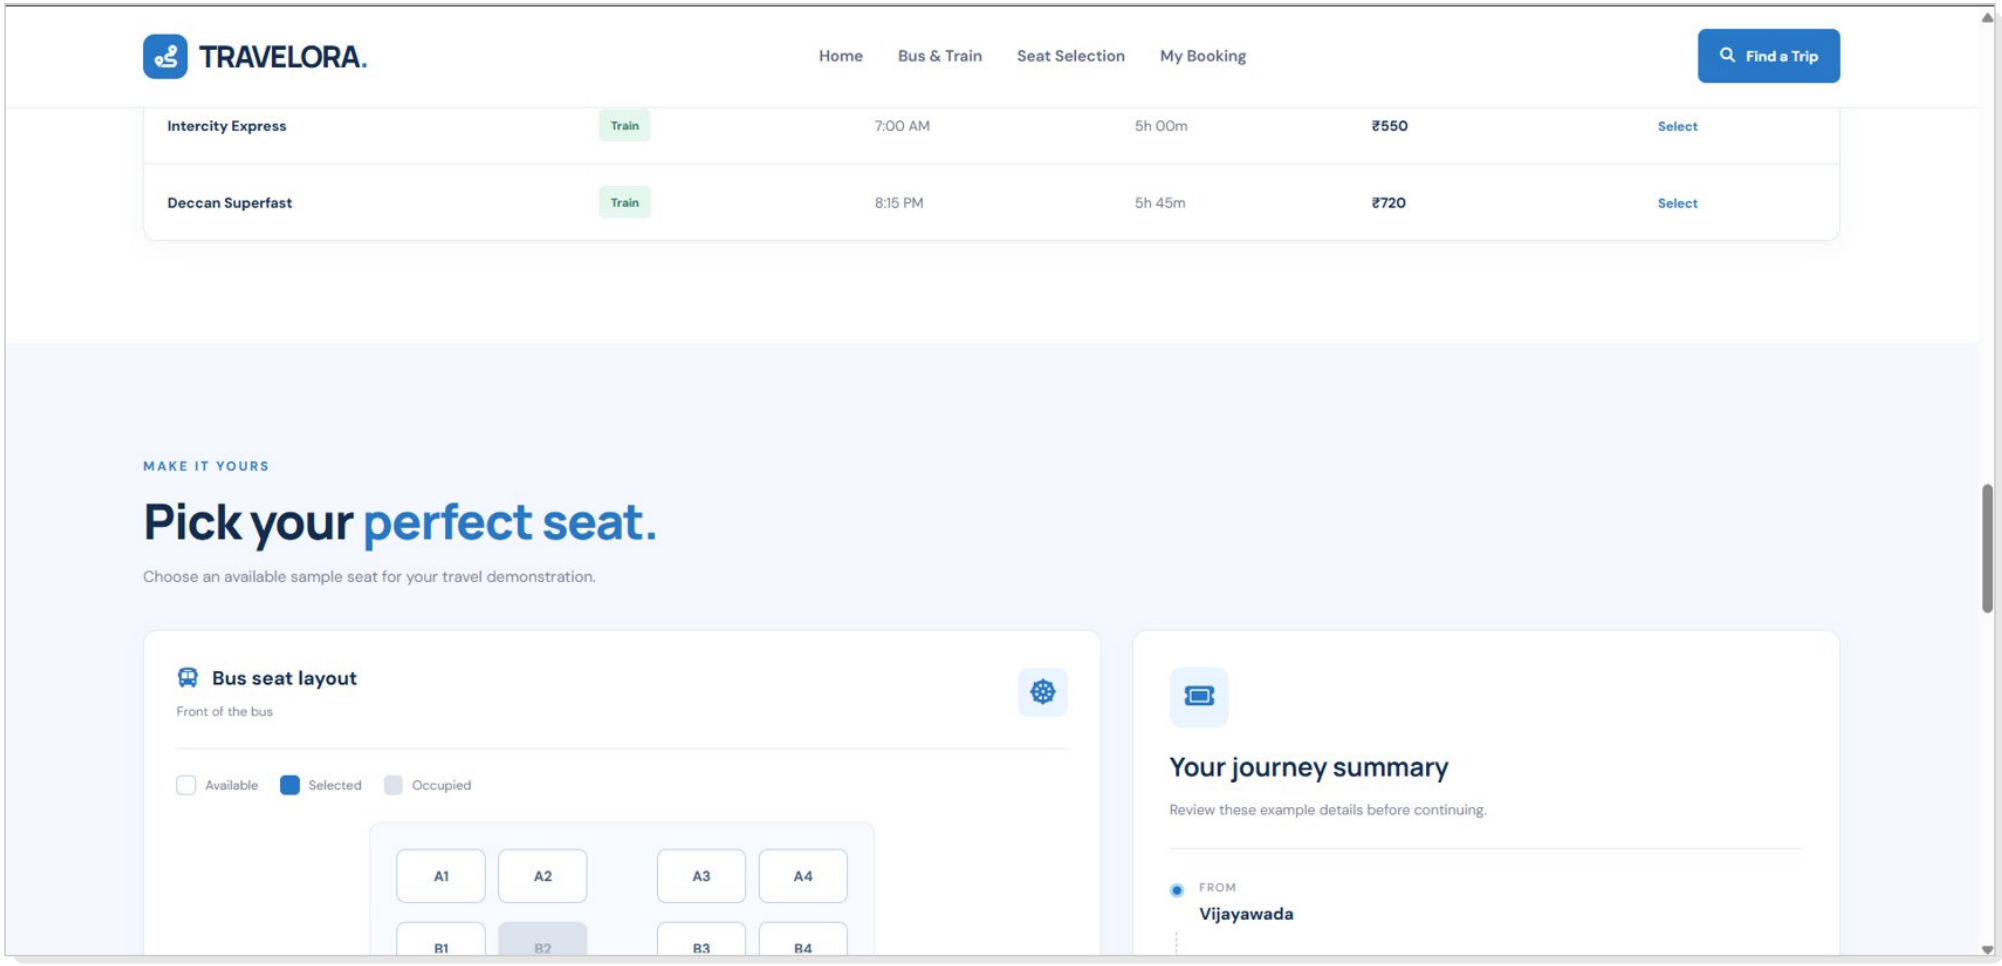

Compare your fares

Train cards continue the listing, followed by a side-by-side table showing service, travel type, departure, duration and sample fare, so travellers can compare quickly and press Select.

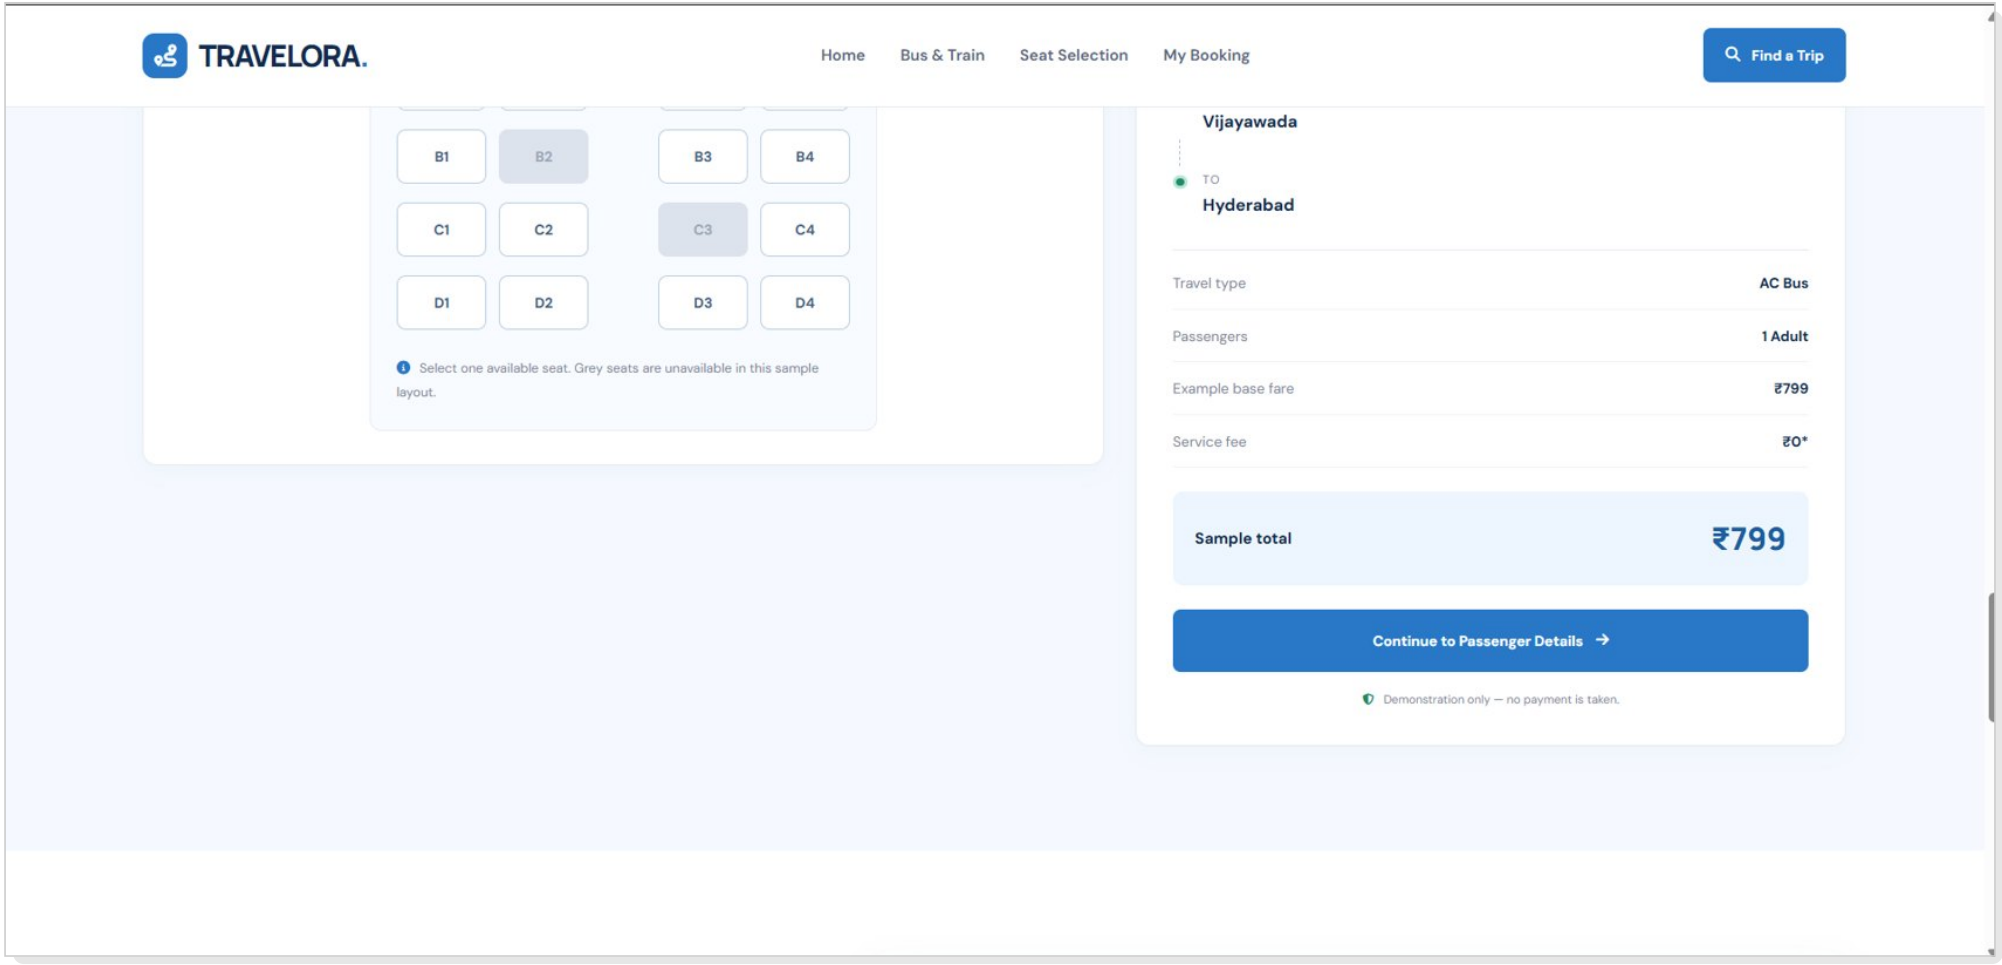

Pick your perfect seat

The bus seat layout shows seats in rows A to D. A legend explains available, selected and occupied seats, and a journey summary starts on the right.

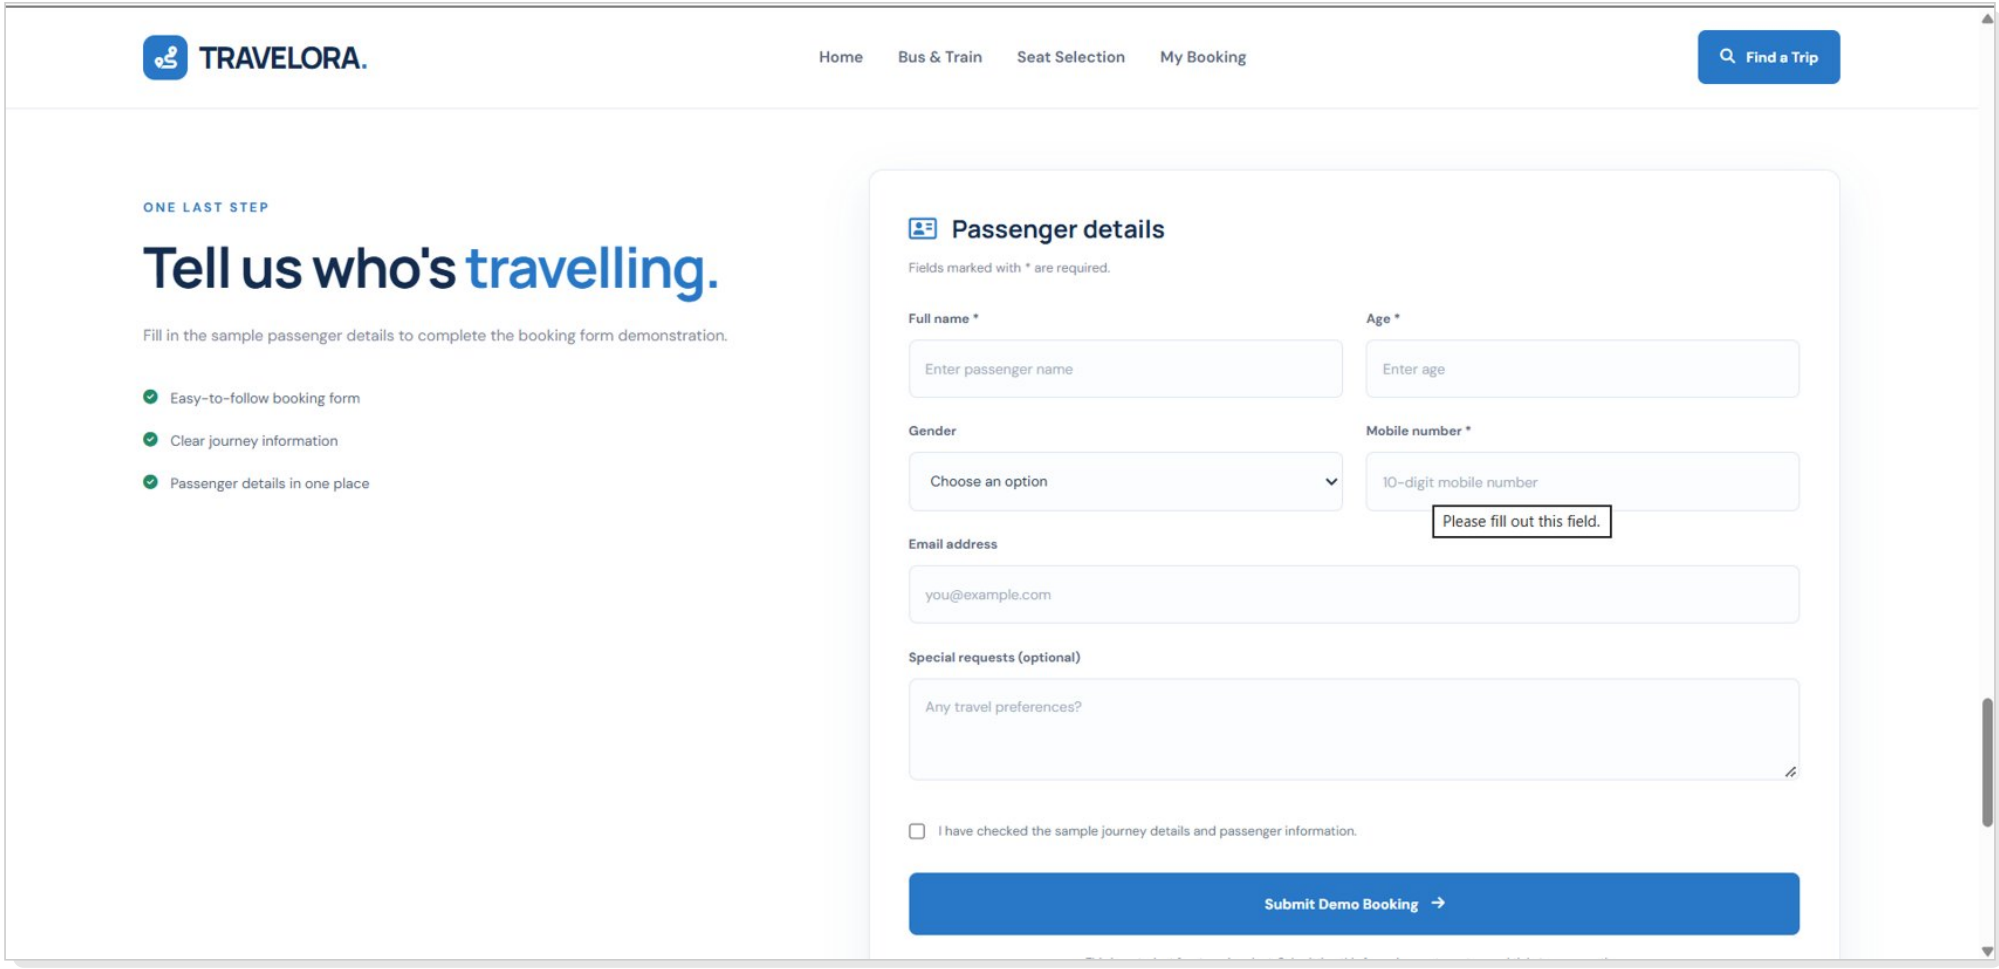

Seat layout and journey summary

Grey seats are unavailable in the sample layout. The summary lists the route, travel type, passengers, base fare, service fee and total, then leads on with 'Continue to Passenger Details'.

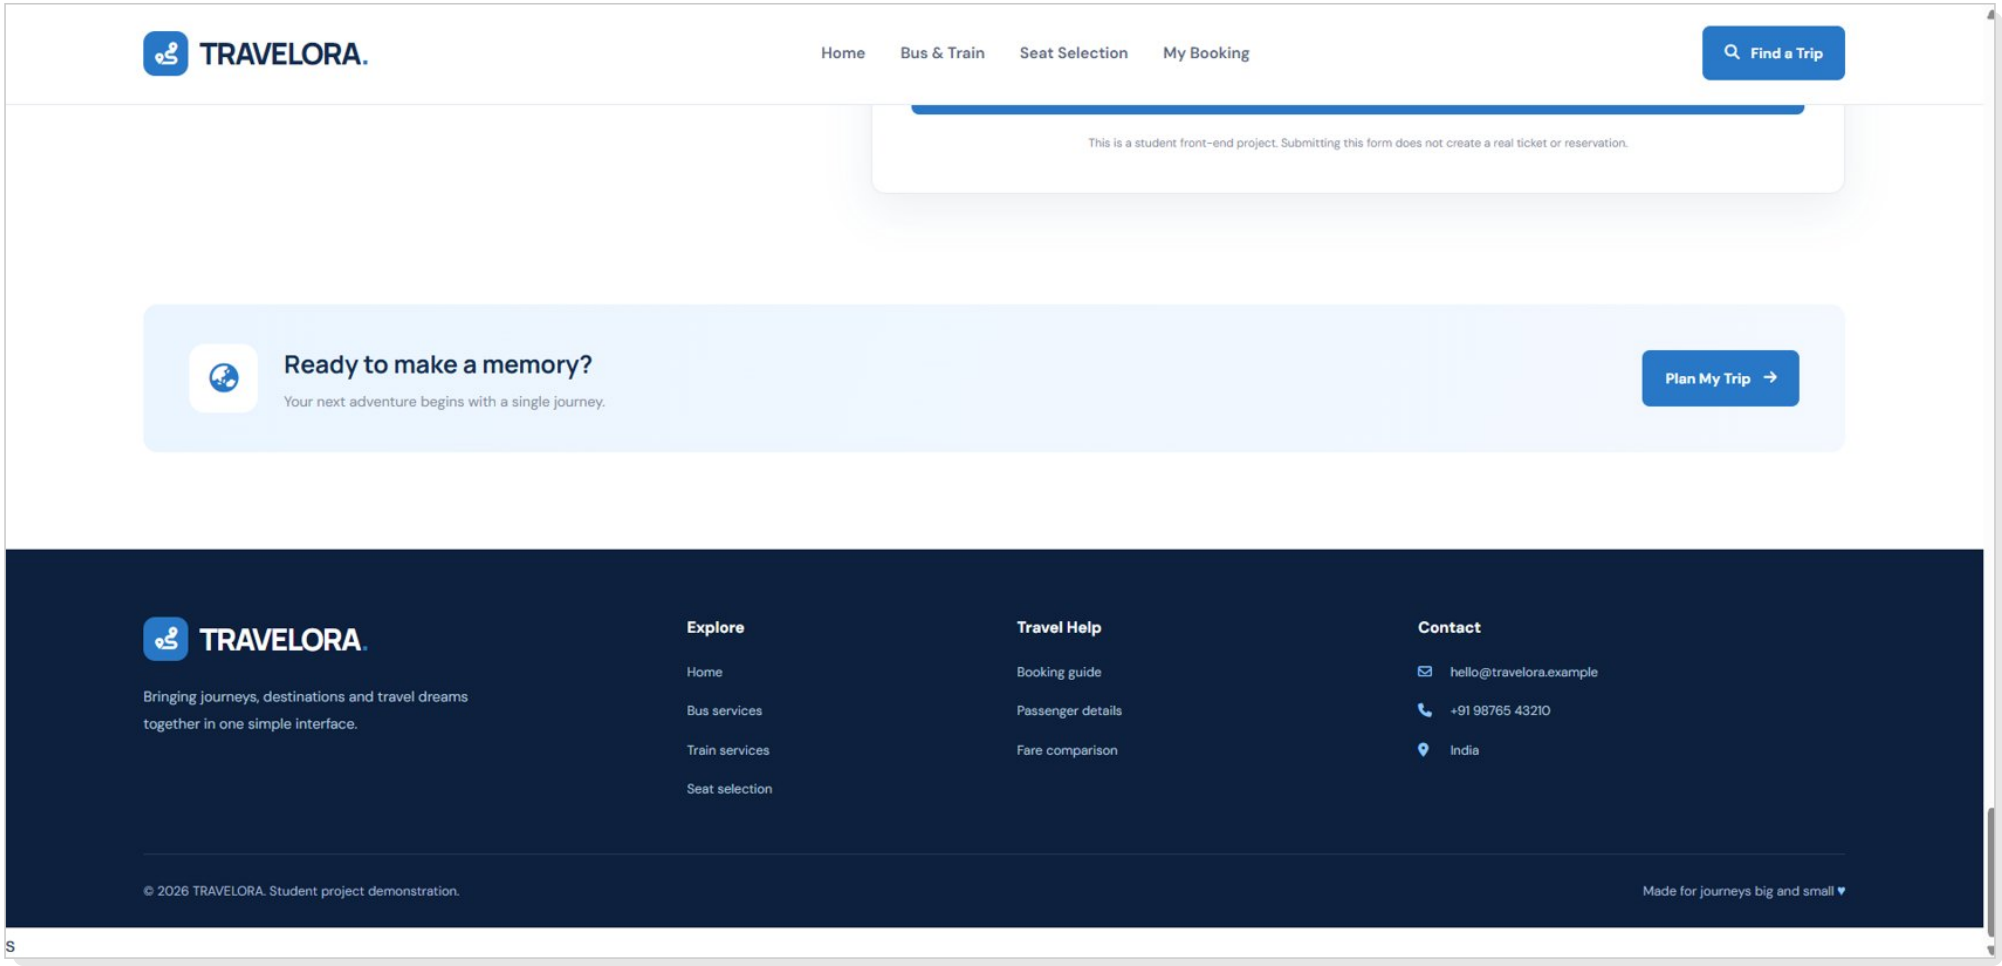

Passenger details form

A clean form collects full name, age, gender, mobile number, email and special requests. Required fields are marked, validation messages appear, and a confirmation checkbox sits above the submit button.

Call to action and footer

A friendly 'Ready to make a memory?' banner invites visitors to plan a trip. The navy footer lists Explore and Travel Help links and contact details, with a note that this is a demonstration project.

PROJECT 3

SweetBites

Bakery and Cake Studio

Life is sweeter with something delicious.

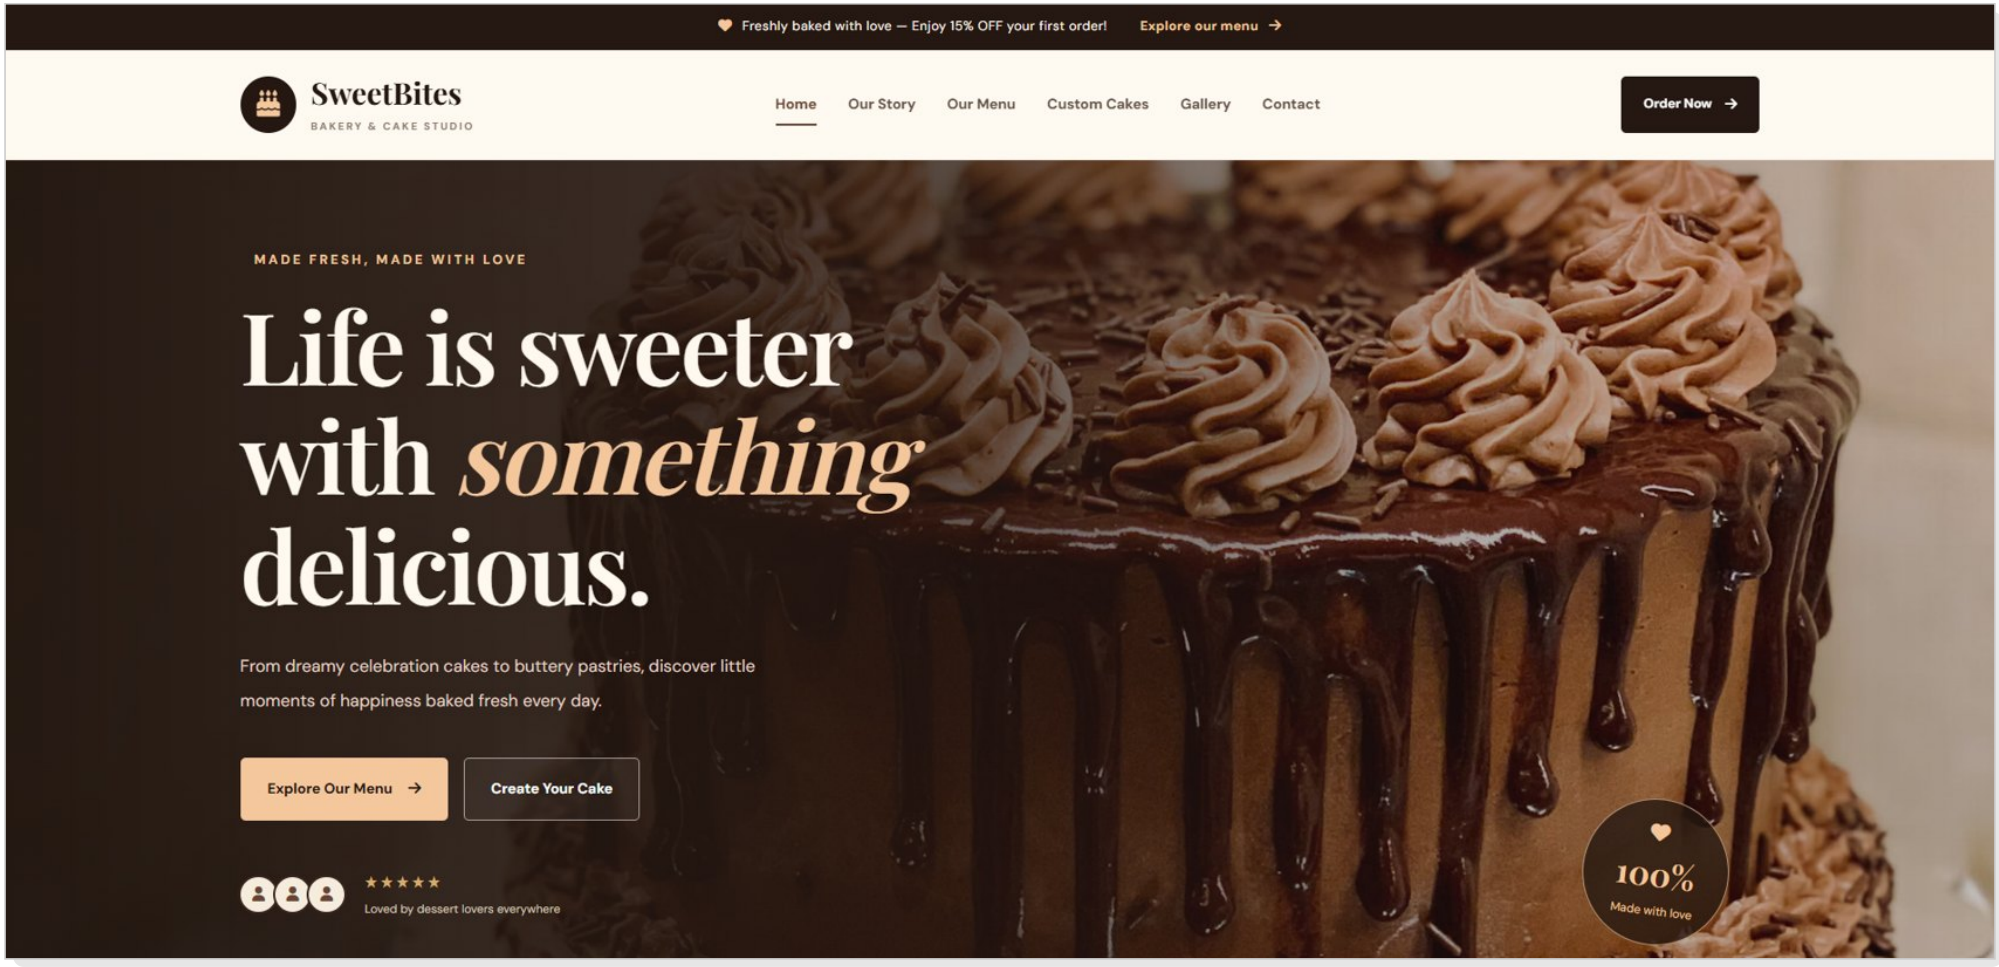

SweetBites is a warm, inviting website for a bakery and cake studio. Rich chocolate browns and soft peach tones, paired with elegant serif and italic headings, set a cosy mood. Visitors can explore the menu, see custom cake ideas, read customer reviews and send an order enquiry.

KEY FEATURES

- Hero section with a drip chocolate cake photo and a first-order offer banner
- Category circles: Celebration Cakes, French Pastries, Cookies and Custom Creations
- About section, special offer banner and a filterable menu of favourites
- Custom cake section with a 'Design My Cake' button
- Photo gallery, customer testimonials and an order enquiry form
- Newsletter sign-up and a detailed footer with opening hours

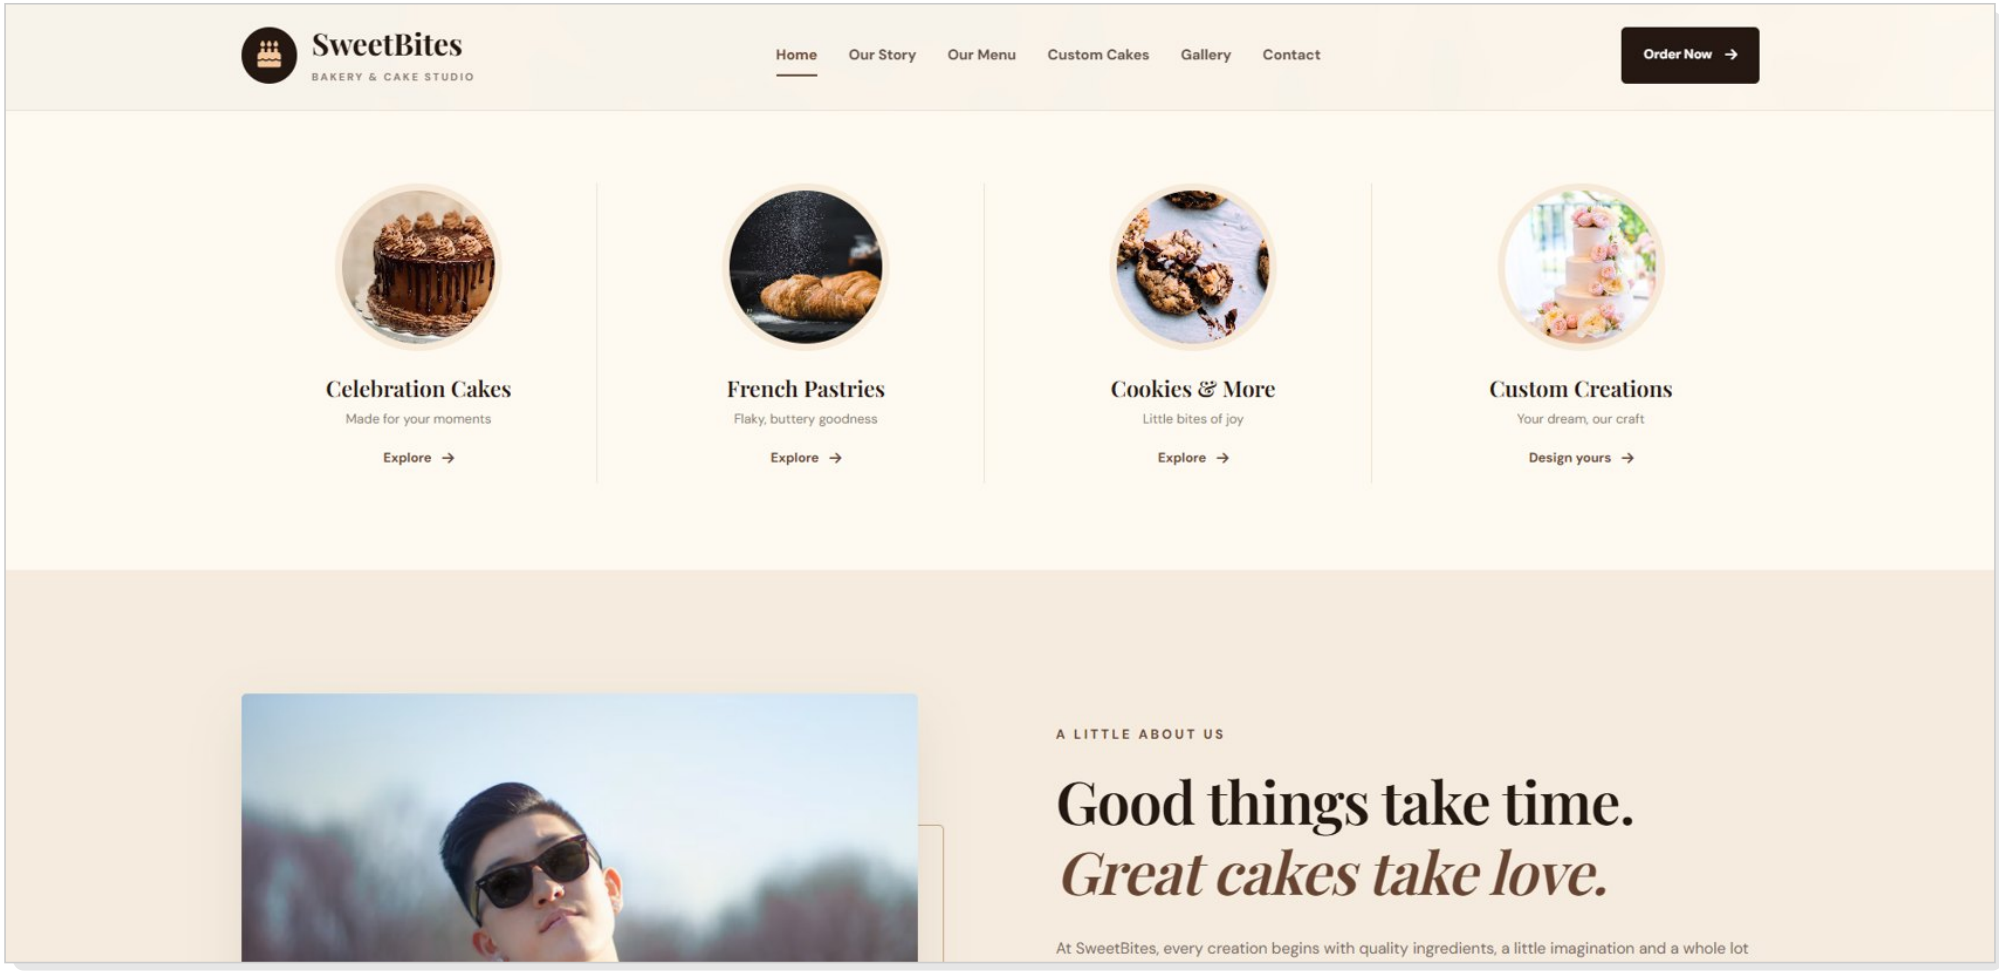

Home page: hero section

A close-up of a chocolate drip cake sets the mood beneath the headline 'Life is sweeter with something delicious.' An announcement bar offers 15% off a first order, and two buttons lead to the menu or the custom cake builder.

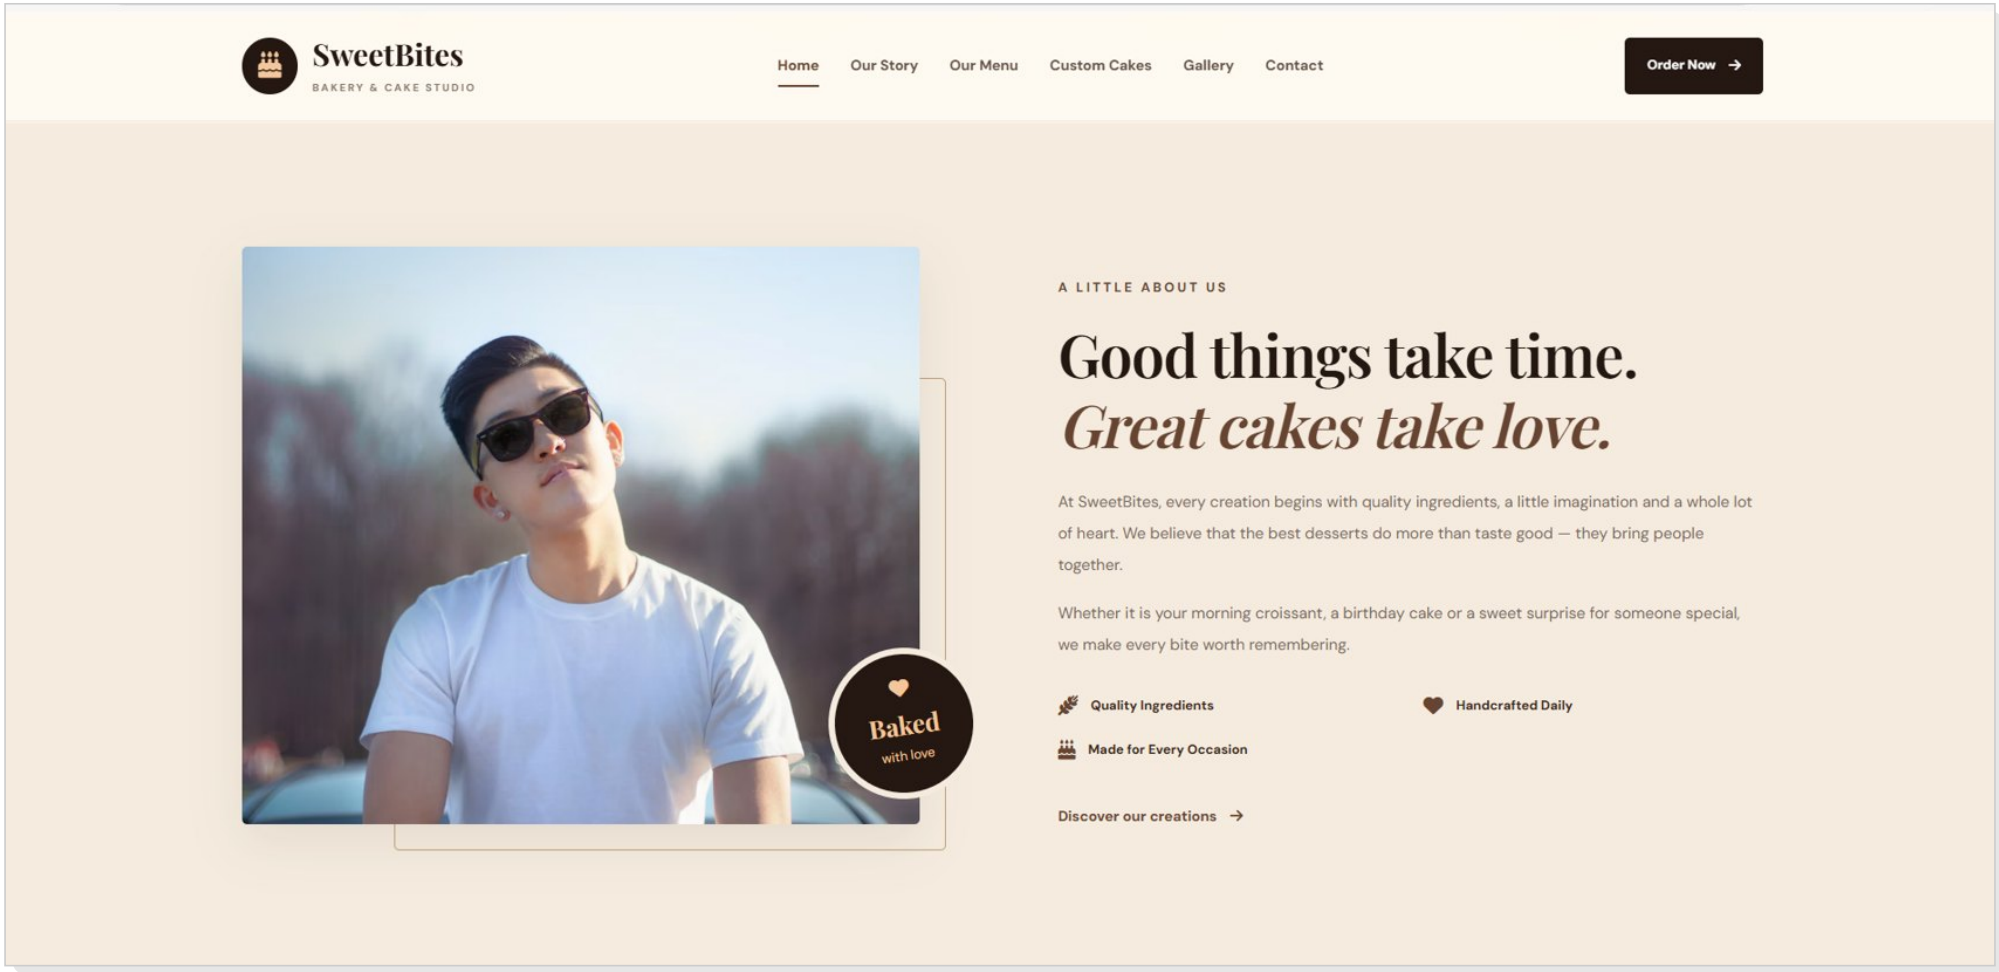

Categories

Four round photo tiles introduce Celebration Cakes, French Pastries, Cookies and More, and Custom Creations, each with a short tagline and an Explore link.

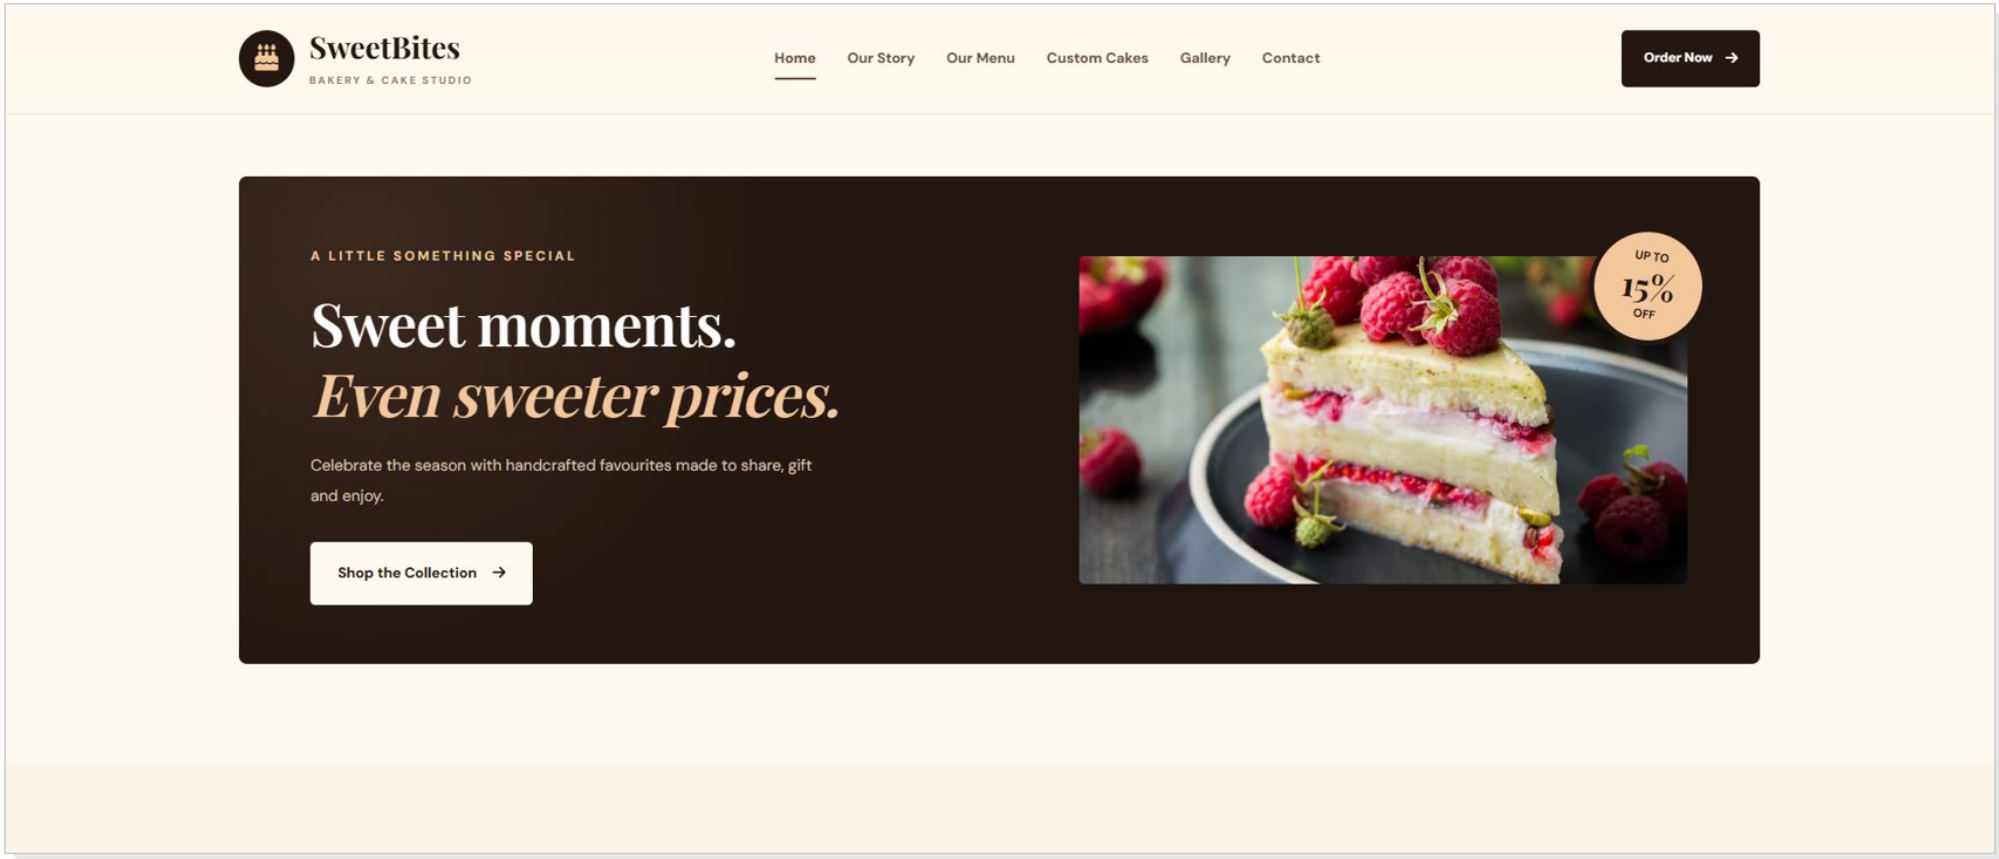

About us

'Good things take time. Great cakes take love.' tells the bakery's story. Icons highlight quality ingredients, handcrafted daily bakes and cakes for every occasion.

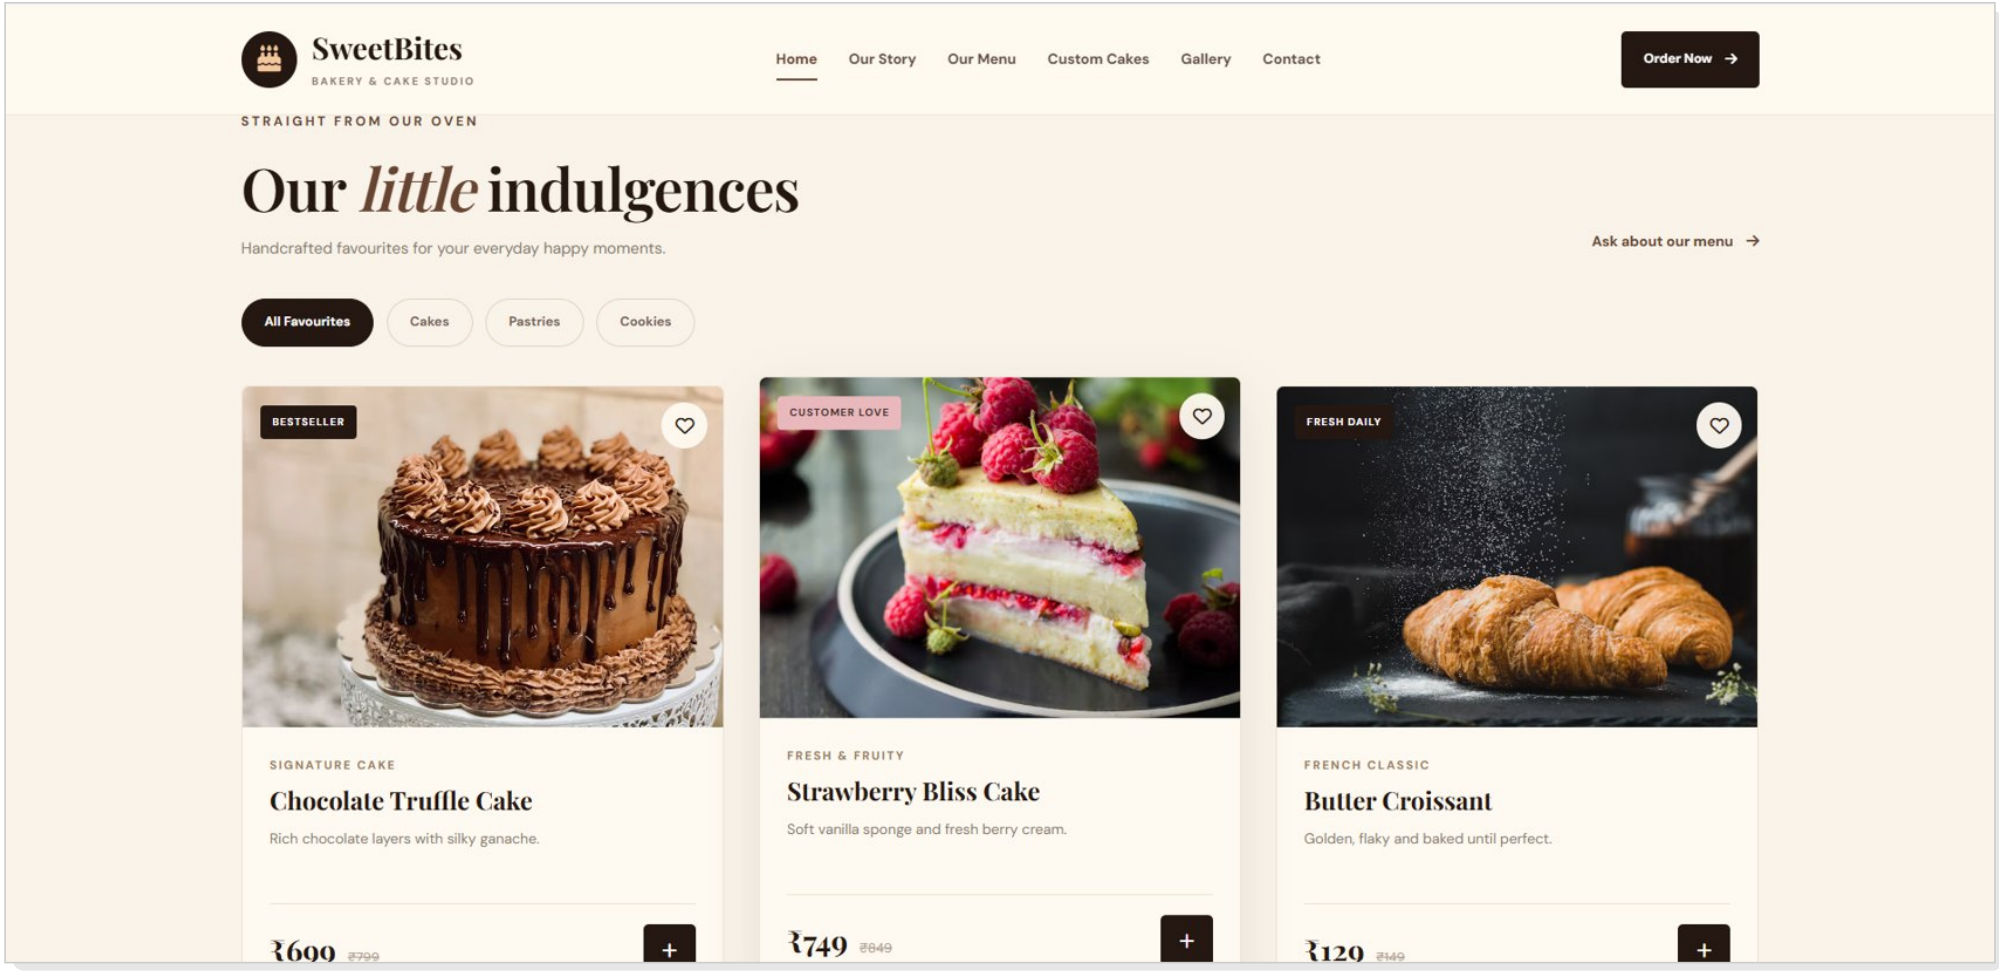

Special offer

A dark banner with a raspberry cake slice and a round 'Up to 15% off' badge encourages visitors to shop the collection.

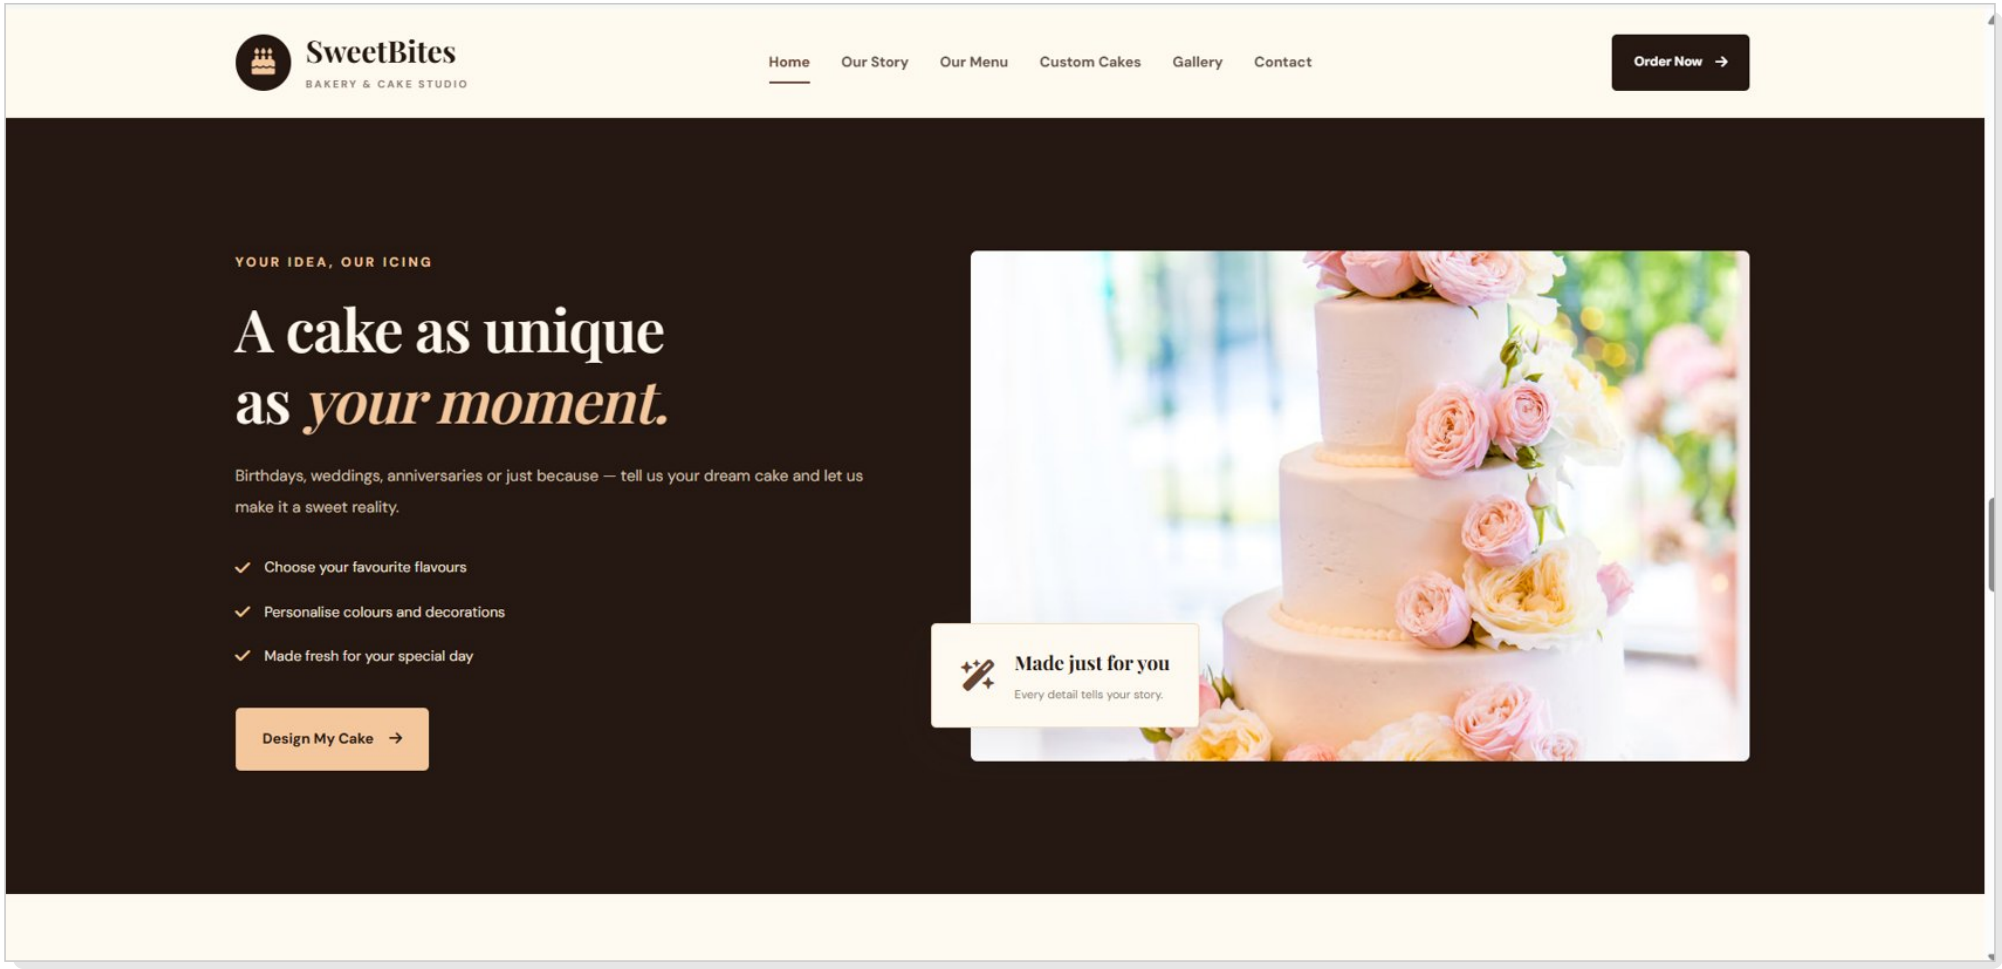

Our little indulgences: menu

Filter buttons (All Favourites, Cakes, Pastries, Cookies) sit above product cards with photos, tags such as Bestseller and Fresh Daily, prices with old prices crossed out, and a quick add button.

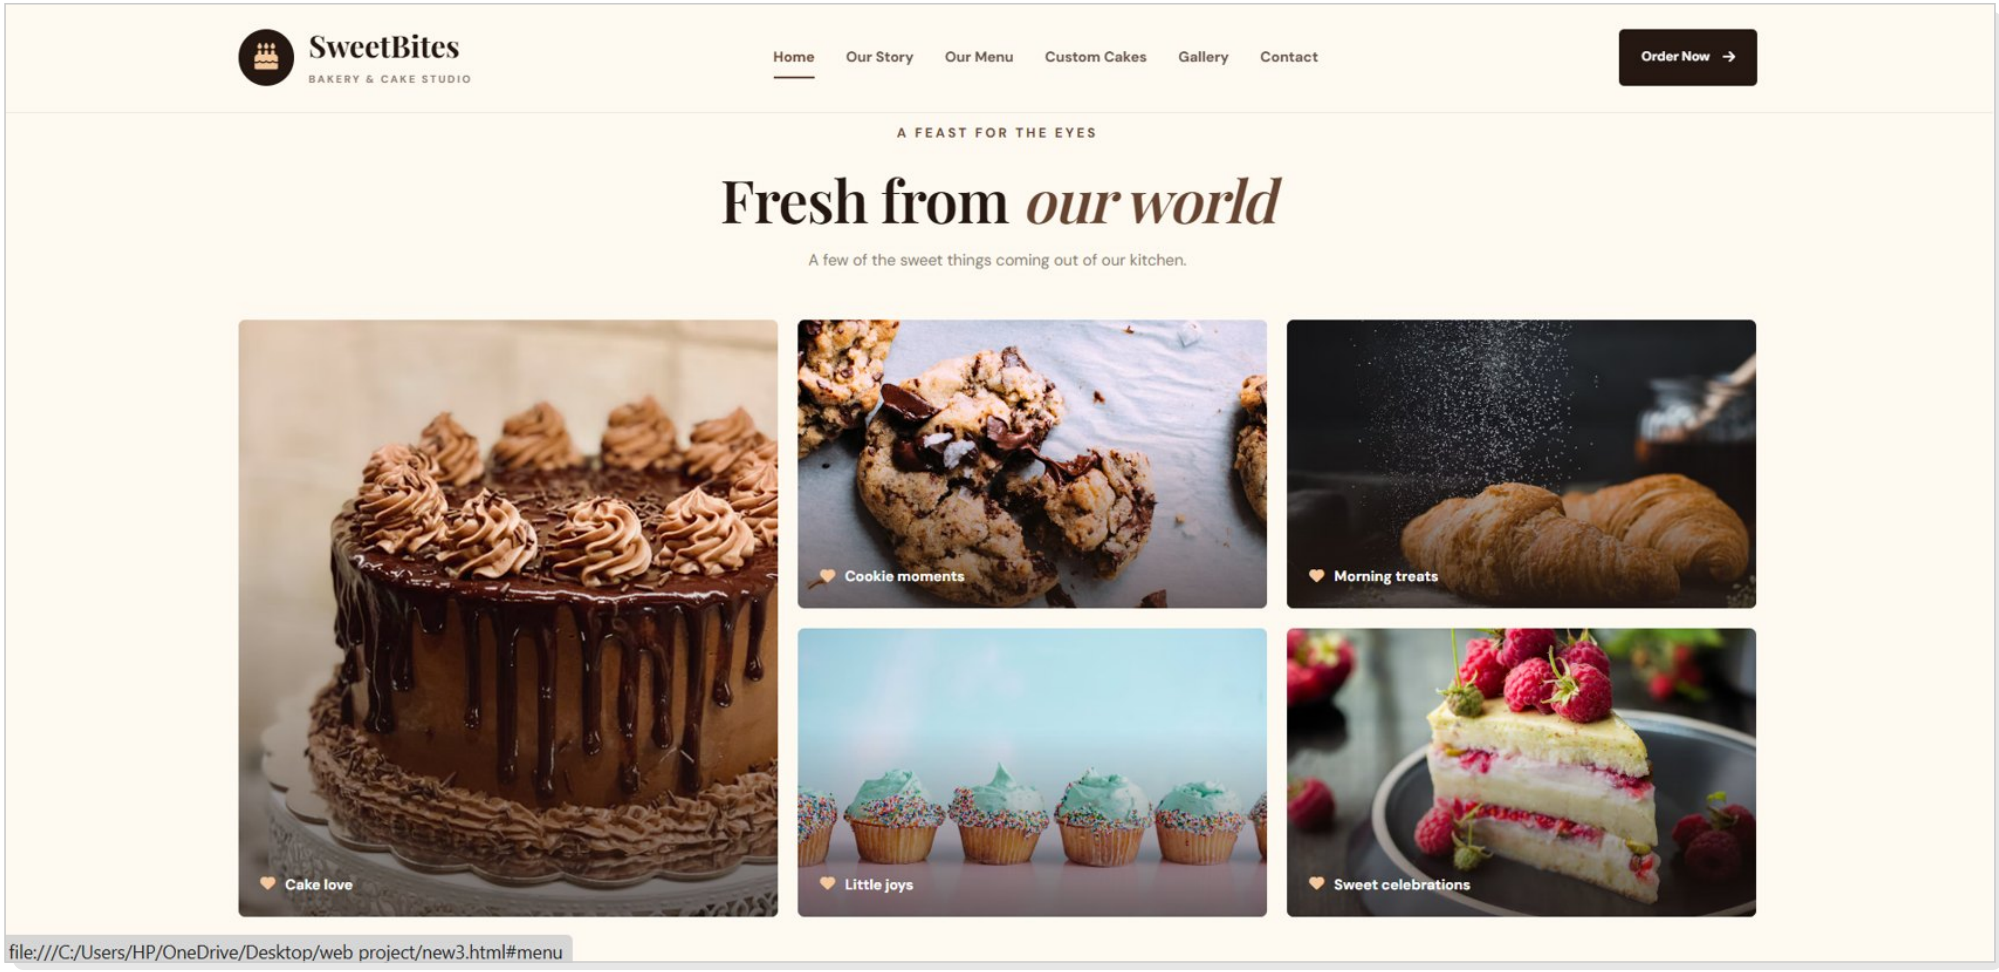

Custom cakes

A dark section invites visitors to design their own cake: choose flavours, personalise colours and decorations, and have it made fresh for the special day.

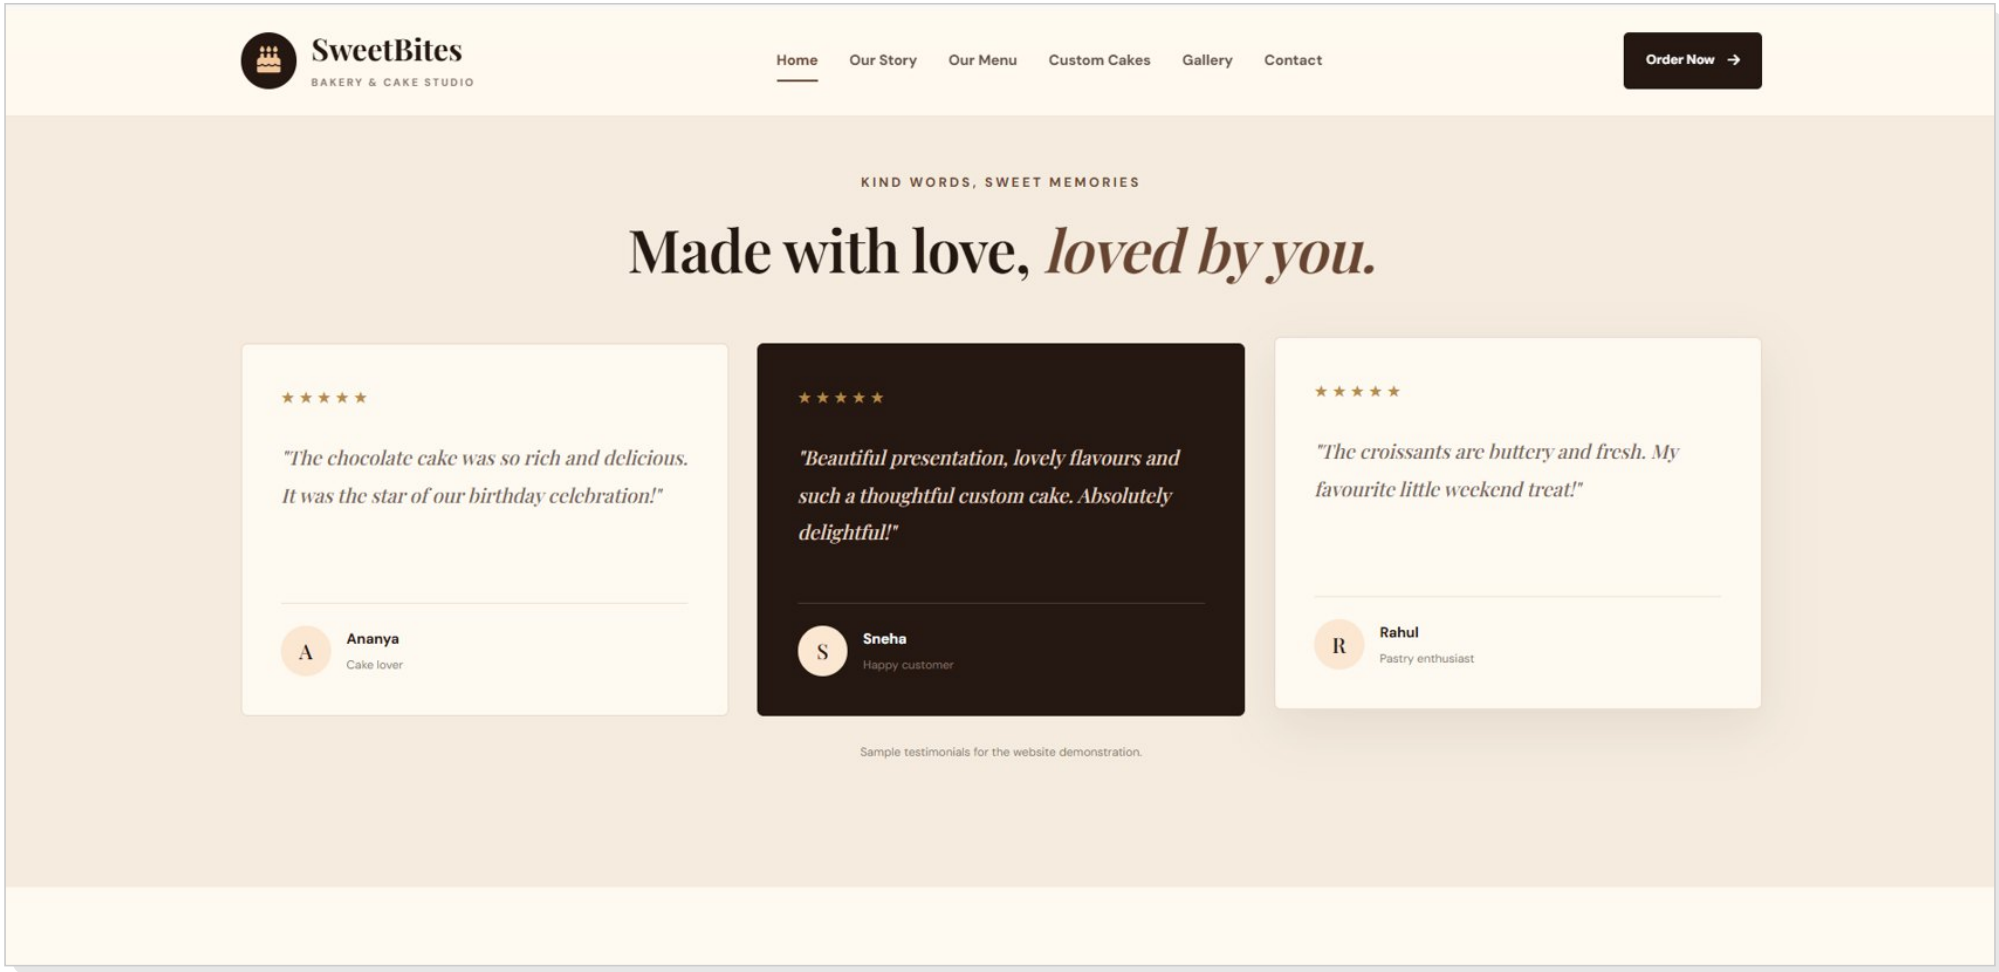

Gallery: fresh from our world

A mosaic of cakes, cookies, croissants and cupcakes gives a quick visual taste of the bakery. Every tile carries a small heart and caption.

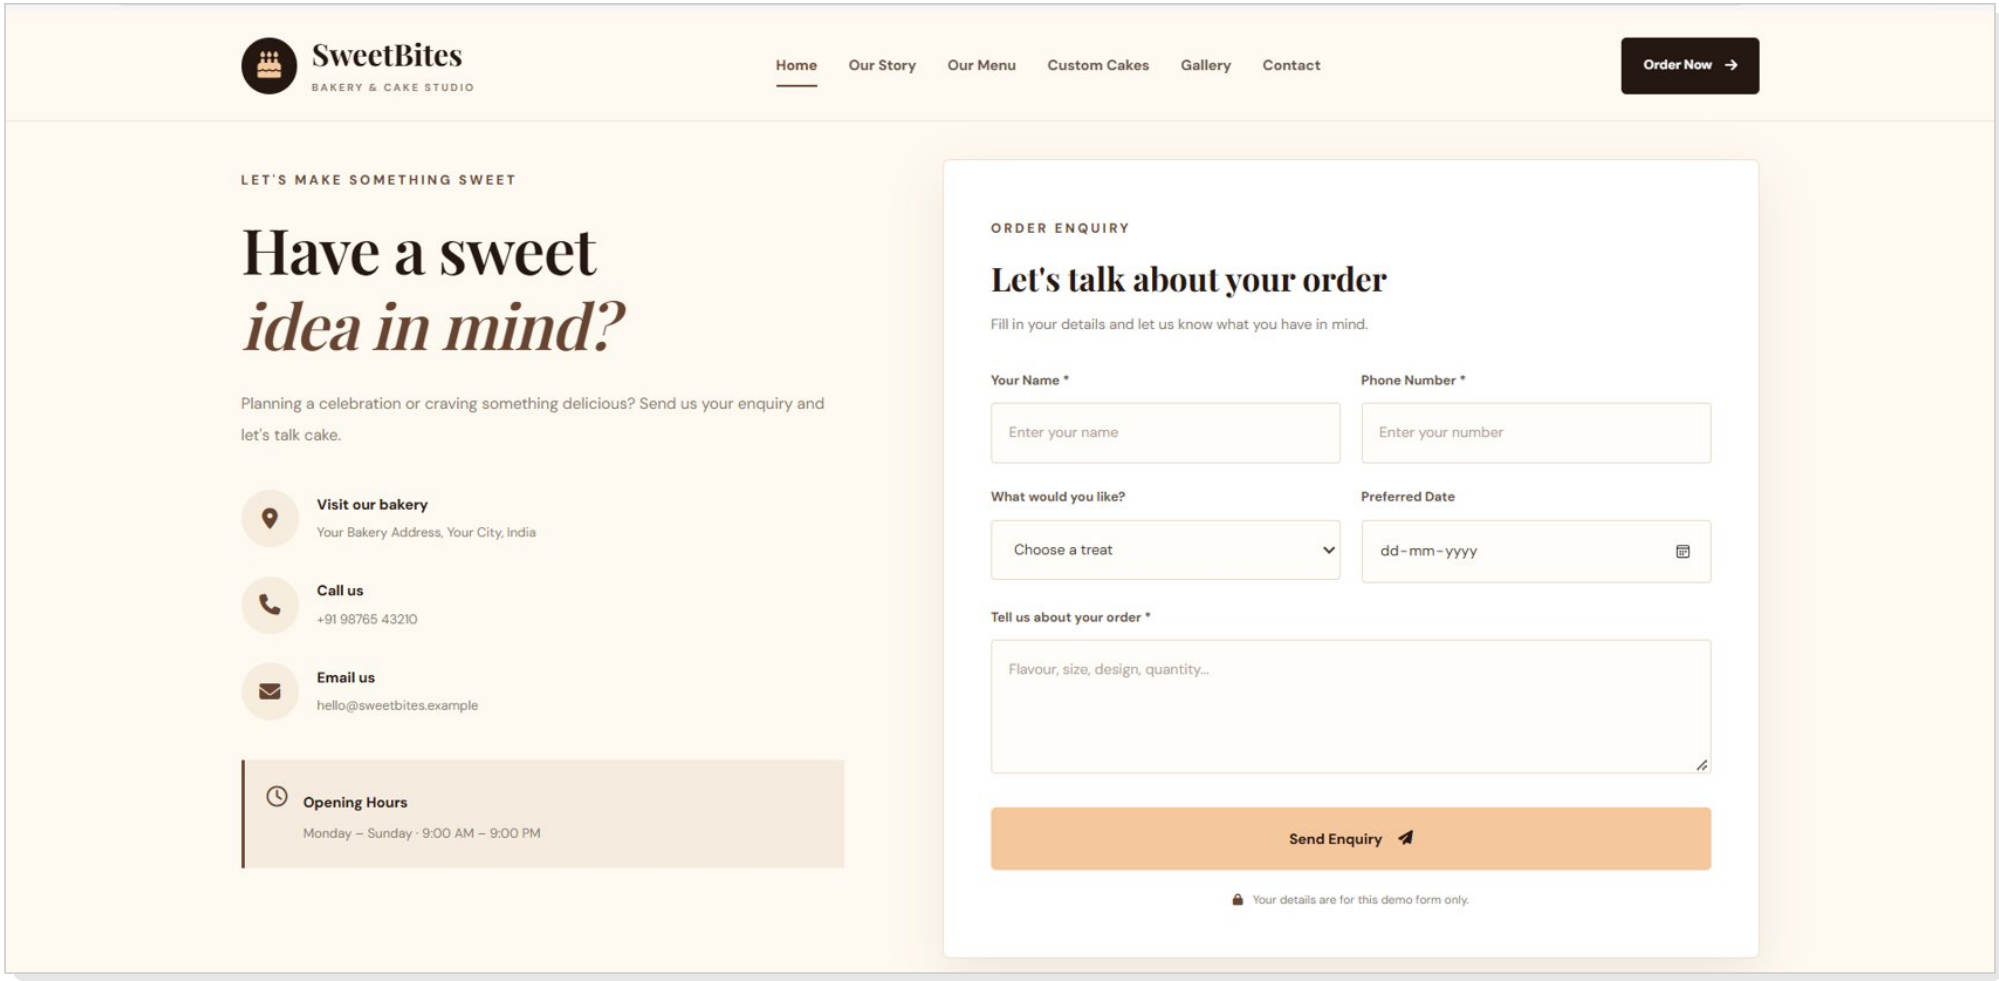

Customer testimonials

Three review cards, with one in a dark colour for contrast, share kind words about the chocolate cake, custom cake and croissants. Five-star ratings and customer initials add a personal touch.

Order enquiry

Visitors can see the bakery address, phone, email and opening hours, then fill in a form with name, phone, treat type, preferred date and order details before pressing Send Enquiry.

Newsletter and footer

'Get the good stuff.' invites email sign-ups for seasonal treats and offers. The chocolate-brown footer gathers site links, help links, contact information, social icons and opening hours.
